PACIFIC TRADE SOLUTION FOR PRESENT ILLS

Vancouver Publisher Gives Interesting Summary Of Impressions Gained On World Tour

For nearly two hours, on Tuesday night, Mr. Robert J. Cromie, editor and owner of the Vancouver Daily Sun, held the close attention of an audience that filled the I.O.O.F. Hall to capacity, while in bright, conversational style, devoid of any tricks of oratory, he gave his impressions gathered on a recent tour of the world and drew conclusions as to economic conditions of the future, looking to a vast increase of trade between the countries bordering upon the Pacific as furnishing a solution for the ills of the present day.

Mr. Cromie was introduced in brief but happy terms by Mayor Rattenbury, who expressed his pleasure in being able, on behalf of the citizens of Kelowna, to extend a cordial welcome to the distinguished visitor.

After announcing that the Canadian Club members had decided to forego listening to an address by Mr. P. B. Fowler, President of the Victoria Chamber of Commerce, in order to attend his lecture, Mr. Cromie delayed commencement of his address until their arrival. He expressed appreciation of the patience of the audience in waiting nearly half an hour, owing to the dinner held by the Club, which detained them, and on arrival of the Club members and their ladies he invited Mr. Fowler to speak to the meeting.

Mr. Fowler said he was very pleased to be present, especially as he had enjoyed a good dinner, had got out of giving an address and was going to have the pleasure of hearing Mr. Cromie speak. (Laughter and applause.)

Sense Of Impending Change

In opening, Mr. Cromie said that throughout his travels he found a sense of impending economic change, but Canada was in the happy position of being able to take whatever might be in store for her. Right through she was in resources, it must be remembered that her population of ten millions was in a few days in comparison with the two billions of the world, and it would be easier to start out on a trip round the world with an open mind than to think that they were the only people on earth.

Starting from Vancouver westward, the speaker dealt tersely and with impressive brevity with the countries he had visited, outlining some of the principal features, resources and customs in a few deft phrases, illuminated by flashes of humour, and measuring them generally by the yardstick of Canada. Hawaii he found very fascinating, a rich country, with a delightful climate producing ample quantities of foodstuffs, besides many million dollars worth of sugar and pineapples for world trade.

Japan, whose homes he described as glorified dolls' houses, had not been blessed particularly by Nature, but her people had shown wonderful progress in the past sixty years and her trade had risen from nothing to a billion dollars in that period. Her advance industrially was marvellous, and he had seen girls working in cotton factories under more modern and more scientific conditions than obtained in similar factories in the United States. The country was crowded with a population of some seventy millions, and a small group of islands, to everything necessarily seemed to be dwarfed to find accommodation in the available space.

China One Of Biggest Things In World

To his mind, China was one of the biggest potential things in the world today, with huge undeveloped resources, a population of four hundred and fifty millions and a culture that extended back for thousands of years, while our ancestors were savages, yet far behind industrially. Describing the amount of work done by manual labour and in a primitive way, Mr. Cromie said it was reckoned that China possessed only thirty or forty cents worth of machinery per capita as compared with \$23.50 per capita in Canada, \$11.00 in Great Britain and \$9.00 in Germany. Railways were lacking, there being only seven thousand miles as against three hundred thousand miles in the United States and Canada. Transportation was dependent principally upon three great river systems, and it was difficult to move food from one part of the country to another, which explained the frequent famines, but all her problems would be straightened out in time and China would modernize and industrialize and would provide a huge market for metal products of Canada.

"Last night," said Mr. Cromie, "we went to bed in Canada worrying because we had a few million bushels of wheat on our hands. In China, they went to bed last night worrying because several million people were starving. There is really no over-production. It is a matter of distribution. China wants to trade with us and we should trade with China."

Dismissing into a characteristic aside, the speaker caused much merriment among the ladies by remarking that probably over here we spoiled our women by paying them deference, while in Asia they did the heavy work and their husbands were the lords of creation. He set down the difference in treatment to the different teachings of the respective religions. Buddha never

ANNUAL MEETING OF BOY SCOUT ASSOCIATION

Reports Show Favourable Progress In Scouting During Past Year

The annual meeting of the Kelowna Boy Scout Association was held in the Scout Hall on Friday evening, with fifteen members present. Mr. W. Lloyd-Jones, Vice-President, acted as chairman.

After the minutes of the last annual meeting and the financial statement had been read by the Secretary, Mr. D. S. Buckland, and adopted, Scout Master Laidlaw read a report on the year's work of the Troop, showing very favourable progress in scouting, and Mr. Alister Cameron read his report as leader of the Rovers. Both were adopted.

District Commissioner E. C. Weddell spoke in complimentary terms of the work carried on by the Rovers, Scouts and Cubs, expressing regret at the loss of Mr. Dick Gardner, who had given valuable service in the Cub section. He also gave a brief report on behalf of the Pack, stating that he was recommending Miss Day as Cub Master.

On motion by Mr. Weddell and Mr. W. Longley, it was decided to apply for registration as a Scout Group Committee, and that the Committee consist of the President, Vice-President, Secretary, a member to be chosen by and from the Group Council (the leaders of the Crew, Troop and Pack), a member from the Ladies' Auxiliary, and Mr. Weddell, with power to add two more members.

Resolutions were passed to the effect that Howard Williams be given an Assistant Scout Master warrant and that a Cub Master warrant be conferred upon Miss Day.

Election of officers resulted as follows: Honorary President, Ven. Archdeacon Greene; Honorary Vice-Presidents, Rev. A. K. McMin, Rev. C. E. Davis, Rev. Father McIntyre and Rev. D. J. Rowland. President, Mr. W. Lloyd-Jones; Vice-President, Mr. J. N. Cushing; Secretary, Mr. D. S. Buckland; member of Scout Group, S. M. J. Laidlaw.

A letter from the Assistant Fire Marshal, recommending necessary alterations to the Scout Hall for fire prevention, was read. This matter will be dealt with by the incoming Committee. Votes of thanks were extended to the retiring executive, to the leaders of the Crew and Pack, to the Ladies' Auxiliary and to the press.

NEW CANADIAN CONVERSION LOAN IS ANNOUNCED

OTTAWA, April 30.—A new Canadian conversion loan is announced by the Finance Department in regard to Dominion bonds maturing between now and 1934. It is rumored that the loan will bear interest at four and one-half per cent.

BROKEN RANKS OF GROWERS MAY REUNITE

Conference Between Executives Of B.C.F.G.A. And I.G.A. Gives Hope Of Ultimate Union

Expressing themselves as strongly in favour of one growers' organization, the executives of the British Columbia Fruit Growers' Association and the Independent Growers' Association, in conference in this city on Monday, passed a resolution to that effect, the text of which is as follows: "We, the executives of the B.C.F.G.A. and the I.G.A., in session, are strongly in favour of one growers' organization."

The business of the meeting constituted a free and friendly discussion of the problems of the grower, and the fact that these organizations, which strongly opposed each other in the proposed marketing control methods for 1931, are now getting together on a friendly basis augurs well for the industry.

The Bureau of Information advocated by the Independent Growers' Association was also discussed, and while the executive of the B.C.F.G.A. did not definitely commit themselves, it is understood that they are more inclined to support it than they were a few months ago.

The B.C.F.G.A. was represented by Mr. R. H. Macdonald, President, Vernon; Mr. T. Abriel, Nakusp; Mr. R. Lyon, Penticton; Mr. F. Cox, Salmon Arm; Mr. A. A. Stevens, Sumnerland; Mr. V. B. Robinson, Secretary, Vancouver.

Executives of the I.G.A. included General A. R. Harman, President, Kelowna; Mr. A. T. Howe, Vernon; Mr. K. Davenport, Penticton; Mr. W. R. Caldwell, Sumnerland; Col. G. A. Duncan, Secretary, Kelowna; Mr. F. R. E. DeHart, Kelowna.

TWO FLIERS CRASH TO DEATH AT BRANDON

BRANDON, Man., Apr. 30.—Two fliers met death here today when a plane piloted by William Clarke, 21, with William Britten as a passenger, was forced down in flames. The youths were found clasped in each other's arms.

NEWMARKET, England, April 30.—Euphemie won the Newmarket Stakes today by a length from Sunset, with Oregon Grape third.

SURPLUS FRUIT TO BE USED BY NEW INDUSTRY

Coast Company Takes First Step Towards Manufacture Of By-Products From Fruit

The By-Products Committee of the B. C. Fruit Growers' Association, as the result of their extended and valuable investigation of the possibilities of utilization of surplus fruit in the manufacture of by-products, had hoped to work out some form of organization by means of which extraction of fruit juices and distillation could be carried on co-operatively in the interest of the growers, so that the large end of the profits would be returned to them in the form of a decent price for the raw material. However, a privately incorporated company has now appeared in the field, and it probably rests with the prices paid for fruit whether growers will be satisfied to let it carry on without entering the business themselves.

The new enterprise was gazetted last week as The Fraser Valley Wineries, Ltd., with authorized capital of \$200,000, divided into 20,000 shares of \$10 each. It is understood that quite a large proportion of the stock has already been subscribed by prominent Vancouver business men, and that the company is now in a position to prepare for actual manufacturing. An existing factory at New Westminster has been acquired, that site being chosen primarily on account of close proximity to the large berry acreage in the Fraser Valley, location on water frontage, with accommodation for deep-sea ships, unrivalled railway connections and climatic conditions that obviate the need of protecting the products of the company against severe cold.

It is proposed to make wines, apple cider, jelly, fruit syrups, fruit concentrates, tomato paste, tomato ketchup, tomato and fruit juices, under the latest scientific processes patented by Professor Eudo Monti, consulting chemist, of Alba, Italy, who has made a lifelong study of the use of fruit juices and their preservation.

An example of the demand that awaits such products may be quoted in the new familiar loganberry wine, which, starting from nothing only a few years ago, has already achieved a sale of 100,000 gallons a year, with the demand rapidly increasing. There is a splendid market in the prairie provinces for native wines and apple cider, and it is estimated that the consumption of native wine from Ontario is now over one million gallons a year.

Non-alcoholic cider, fruit juices and flavours for soda fountain use also will be featured by the new concern, besides tomato juice, which is becoming very popular as a health drink.

The factory building purchased by the company will require some alteration to adapt it for use, but it is hoped to have the necessary work completed and the machinery installed by June, so that some of the surplus material in the Okanagan can be handled this season. It is not possible to say what quantity can be used or what prices will be paid, but presumably, in order to encourage provision of a steady supply of material, as liberal a rate as possible will be offered.

TRANS-CAUCASIAN QUAKES CAUSE HEAVY MORTALITY

MOSCOW, April 30.—Earthquakes yesterday caused 392 deaths in Trans-Caucasia.

KING GEORGE NOW ABLE TO BE OUT

WINDSOR, April 30.—The King emerged from Windsor Castle today for the first time since the announcement of his illness a month ago. He was accompanied by the Queen on a walk around the grounds of the castle. They strolled through the Park for nearly an hour, the King wearing an overcoat and a bowler hat. At 10 o'clock, half a mile from the castle, an automobile picked them up and they came back for luncheon.

MANY KILLED IN RIO DE JANEIRO DISASTER

RIO DE JANEIRO, Brazil, April 30.—Two hundred employees of the Government Naval Laboratory here were either killed or injured when a terrific explosion wrecked the plant today.

SPAIN WILLING TO ADMIT LEON TROTSKY

MADRID, Apr. 30.—An official announcement issued today by the Foreign Minister states that Leon Trotsky, Russian exile, will be allowed to take up his domicile in Spain, if he so desires.

G. K. CHESTERTON ON AMERICAN "BARBARISM"

LONDON, April 30.—Gilbert K. Chesterton, who is back from a trip to the United States, feels as though he has just returned from either a different civilization or from barbarism. Prohibition, ugly buildings and Tennessee's rigorous moral code impressed him mainly. There were no villages in the United States, he said, all cities, and far too much drinking done.

CREEKS NOT OPEN UNTIL JUNE 1st

Lakes Will Be Available To Anglers From May 1st

It was stated erroneously in the fishing notes last week that "On May 1st the surrounding lakes and creeks will be thrown open." This was the understanding, but it now develops that the creeks and also the rivers will remain closed until June 1st, only the surrounding lakes opening on May 1st.

These lakes, of which there are many, constitute good fishing grounds, so there is no need to worry about the creeks for awhile yet. Chute, Beaver, Bear, Penantian, Okanagan, Long and Woods Lakes, the McCulloch lakes and Fish Lake, near Summerland, are among the many old reliables.

"It looks like a busy week-end for local anglers."

MEIGHEN SUGGESTS SILVER DOLLARS FOR CANADA

TORONTO, April 30.—Extension of silver coinage to include in Canada one dollar and two dollar pieces and increase of the silver content in subsidiary coins was suggested last night by Rt. Hon. A. E. Meighen as a means of aiding the cure of depression, at the annual dinner of the daily newspaper publishers of Canada. He named the drastic decline in the value of silver as prominent in the causes contributory to world-wide depression. Sole measure of value and sole medium of exchange for half the world, silver had dropped precipitately to little more than forty per cent of its value five years ago, he pointed out.

CRAWFORD MILL DESTROYED BY FIRE

Early Morning Blaze Causes Estimated Loss Of \$25,000, With No Insurance

Through a disastrous fire, which lighted the sky for miles around and blazed furiously through the early hours of this morning, Crawford's mill, Okanagan Mission, lost their mill, equipment, hundreds of thousands of feet of newly cut lumber and buildings adjacent to the mill.

The loss, which is not covered by insurance, is estimated at \$25,000.

Other buildings, a part of the mill property, and slabs, logs and lumber which escaped the ravages of fire early this morning are still in danger, as a strong breeze would quickly cause the flames to spread. A veritable mountain of sawdust, which is in the burning area, will remain ignited for days, possibly weeks.

The fire was first observed at about 1 a.m. by workmen sleeping in the bunk houses, but the blaze had gained such headway that nothing could be done to effectively check it. There were no adequate facilities to enable the men to fight the fire; a small hose and water buckets constituted fire-fighting equipment, and the water supply was not considerable.

It is believed that the blaze originated in the boiler room. The lumber, of which there was some 800,000 ft. stowed in the mill in huge stacks and burned like match-wood. Some of it at the edge of the burning area was removed to prevent the fire spreading, and employees of the mill worked desperately to save the surrounding buildings.

The Kelowna Volunteer Fire Brigade sent one truck and several men to the scene of the conflagration, although it was realized they could do little in the way of controlling the fire, the water supply being not only inadequate for pumping purposes but unapproachable as well. They assisted in removing some of the lumber on the outskirts of the burning area, returning to the city about 5 a.m.

The fire is a serious loss to Crawford Bros., with whom the community sympathizes, to the men who are thrown out of work in trying times, and to the district as a whole. The mill had been in operation for a number of years.

CHANGE IN TIME OF UNITED CHURCH SCHOOL

Sessions To Be Held In Morning During Summer Months

The Church School sessions at First United Church will be changed on Sunday next from the afternoon hour, at 3 o'clock, to the morning hour, at 10 o'clock sharp.

This change of time is made for the summer season and will continue until the reopening of the public schools at the beginning of September. Parents and pupils will please note the change and endeavour to be in good time to permit of school opening at 10 a.m. sharp.

The minister of First United Church will continue the sermon series morning and evening on Sunday next. The morning sermon in the series on "The Inner Circle" will be "Peter, the Man of Instability and the Apostle of Reality." The evening message, which is the third in the series on "Dare we be Christians," will be "The Impossible Christian Injunction," and has very special application to our times.

MUSIC RULES SUPREME FOR THREE DAYS

Sixth Okanagan Valley Musical Festival Promises To Be Best Of The Series

Kelowna extends a hearty welcome this week to the competitors from outside points who are gathering here to participate in the sixth annual Okanagan Valley Musical Festival, which was opened this afternoon in the Scout Hall with an address of welcome by His Worship, Mayor D. H. Rattenbury, and which will continue until Saturday night.

The 1931 Festival marks the sixth successive time the competitions have been held in this city, and in the past six years the event has grown from a very modest beginning to one of the most important and pretentious affairs staged annually in this valley. Latent musical talent in the child has been brought to the surface through the Festival, the youth with great potential ability has had the faults standing in the way of his success corrected through the kindly criticisms of the adjudicators, and all with a reasonable degree of talent have received encouragement. More than one young girl or boy who attended the early Festivals has this worthy movement to thank for the heights he or she has attained in the realm of music.

The Festival committee were indeed fortunate this year in again securing the services of Mrs. Gertrude Huntly Green, noted Canadian pianist, who officiated last year as one of the adjudicators for the music. Mrs. Green is both kindly and conscientious in her criticisms, and her knowledge of music is profound. She is assisted by Mr. Burton L. Kurth, of Vancouver, Miss Beatrice Cave-Bayne-Cave, also of Vancouver, will adjudicate for the elocution and dancing.

A glance at the three-day programme is convincing proof that today, tomorrow and Saturday are going to be busy ones. Already twelve hundred competitors' tickets have been issued, giving some idea of the large entry list, and new classes added this year have lengthened the programme to some extent. As a result of the increase, the United Church Hall will be in use all day on Friday as well as Saturday morning. As usual, the Scout Hall will be utilized day and night, and the majority of the competitions will be held in that building.

The evening programmes offer good musical entertainment. The outstanding features of the evening's programme are the Boys' Choir competition, always a delight to the ear, the Boys' Solo and Violin (open) classes, and winners of the Pianoforte classes heard during the day.

Friday promises to be a very busy day as five sessions will be held—three in the Scout Hall and two in the United Church Hall. In the afternoon, several finals will be heard and performances will be given by the winners. The programme will also include selections by the winners of the various challenge cups and the winning school choirs, and the vocal solo gold medalist championship of the valley will be decided.

Saturday will be taken up chiefly with children's solos and choirs in the Scout Hall, while a full session of elocution classes will be held in the United Church Hall. One class of particular interest to be held in the Scout Hall in the afternoon will be the Solo Wind Instrument, with some entries from Trail, and at the final concert in the evening Vernon, Trail and Kamloops bands will be heard. This programme will also include selections by the winners of the various challenge cups and the winning school choirs, and the vocal solo gold medalist championship of the valley will be decided.

RADIO SEER CHARGED WITH FORTUNE TELLING

VANCOUVER, Apr. 30.—Wm. P. Kibbler, who answers questions as to the future over Radio Station CKMQ, has been arrested, charged with fortune telling. He finds he unknowingly answered several questions regarding the future sent in anonymously by the police.

LAMONT DEPRECATES WAGE REDUCTIONS

NEW YORK, Apr. 30.—Deprecating wage reductions, Gerald Lamont, Secretary of Commerce, in an address here last night, declared that high wages and shorter hours had always been coincident with prosperity.

SPANISH PRINCE ENTERS BRITISH NAVAL COLLEGE

DARTMOUTH, England, Apr. 30.—Prince Juan of Spain entered the Royal Naval College here today as a cadet.

DROUGHT TAKES GRIM TOLL IN ARABIA

JERUSALEM, Apr. 30.—Hundreds of shepherd tribesmen and their flocks are reported to be dying of thirst and starvation in the deserts of southern Syria and central Arabia, where a winter drought has killed off the vegetation and has dried up the wells.

CANADIAN CLUB MEMBERS ATTEND CROMIE LECTURE

Address By Victoria Speaker Cancelled At His Own Suggestion

Acting upon the suggestion of Mr. P. B. Fowler, Manager of the Canadian Bank of Commerce and President of the Chamber of Commerce, Victoria, who came to Kelowna to address the Canadian Club on Tuesday night, after enjoying dinner in the large dining room of the Royal Anne Hotel, the members adjourned to the I.O.O.F. Temple to hear the lecture delivered by Mr. R. J. Cromie, publisher of The Vancouver Sun. Consequently Mr. Fowler, who was to speak on "Informed Citizenship," was not heard. Mr. Cromie was a dinner guest of the Club.

Addressing the Club briefly during dinner, Mr. Fowler stated that he had met Mr. Cromie on the train while travelling to the Okanagan, and found that they were to speak in Kelowna on the same night. He and Mr. Cromie had travelled together to Los Angeles last year, and he had heard the Sun publisher give a magnificent address in the California city. He had suggested, therefore, that the Club adjourn in time to hear Mr. Cromie, whose powers of observation and deduction were indeed wonderful.

Mr. F. M. Black, President and chairman, remarked that the proposal came from Mr. Fowler himself, not from the executive, and it was hoped that the Club would have the privilege of hearing Mr. Fowler later in the year. The Victoria visitor was "sold" on the town and might be persuaded to spend a holiday here this summer.

The chairman extended thanks to the Gryo Club for yielding the dining room on the night of its regular meeting, which was appreciated. He stated that the June speaker—the final for the season—would be Dean Quainton, of Victoria. He referred to Mr. Fowler, with whom he had worked in a London bank, as his "oldest living friend in B. C."

Mr. Fowler replied that, when he had informed Mr. B. C. Nicholas, managing editor of the Victoria Times, he was coming to Kelowna, Mr. Nicholas told him that the Orchard City was outstanding in his recent visit to the Interior as a Canadian Club speaker. Mr. Fowler paid tribute to Hon. J. W. Jones, Minister of Finance, Kelowna's contribution to provincial public life, who was to be admired for his courage and who had endeared himself, exclusive of politics or party, to the people of Victoria.

Mrs. Phyllis Trenwith, who won high honours at the Yale-Cariboo Musical Festival held at Kamloops last week, entertained with two pleasing vocal selections, accompanied by Miss Marie Chapin at the piano, both of whom were accorded thanks.

LOWER PRICE OFFERED FOR TOMATOES

Occidental Cannery Will Operate If Growers Accept \$14 Per Ton As Against \$17 Last Year

Rumour that the Occidental Cannery would not operate this year in the canning of tomatoes was exploded yesterday by an official of the company, who told The Courier that the cannery would process tomatoes this season if they could be procured at a stipulated price of \$14 per ton, the figure at which the Ashcroft cannery signed up growers this month.

It had been denied, the official stated, that the Ashcroft growers had agreed to sell their produce to the cannery at the \$14 rate, but it was a fact that on April 13th and 14th the growers in that district had contracted to deliver tomatoes at that figure.

Last year members of the B. C. Tomato Growers' Association received \$17 per ton, but market conditions of the past year have seriously affected sales, consequently over-production has resulted. This year all canneries in the province will be forced to handle a reduced tonnage, according to the Occidental official, and prices will be proportionately low. In Ontario, for instance, British Columbia's chief competitor, canneries tomatoes run from \$10 to \$11.60 per ton.

It is understood that the B. C. Tomato Growers' Association are holding out for \$16 per ton. A general meeting of the Association is being held here on Wednesday next.

UNEMPLOYMENT INSURANCE SCHEME FOR CANADA

OTTAWA, April 30.—The government hopes to submit to Parliament "at the earliest possible moment" legislation providing for some form of unemployment insurance. A statement to this effect was made by the Premier in the House of Commons yesterday.

The Prime Minister made it clear, however, that such legislation could only be submitted after careful enquiry and gathering of the fullest information. The Department of Finance will not act without preliminary investigation.

Premier Bennett made one definite declaration, that he would never support a system of non-contributory insurance, as Canada could not stand a system such as that in operation in Great Britain, with its tremendous drain on the exchequer.

B. C. PRODUCTS FOR B. C. PEOPLE

Inspiring Address And Splendid Display Of Exhibits At Mass Meeting Of Women's Institutes

"Look at the payroll behind the product. A B. C. product is anything that is made or done that creates a payroll and wealth in British Columbia. Boys and girls are one of the greatest of B. C. products; if we want to keep them here, we must buy here."

Impressing upon his hearers the prime importance of buying goods manufactured in British Columbia, Mr. L. F. Champion, of the B. C. Products Bureau of the Vancouver Board of Trade, brought a stirring message to the women of this section of the Okanagan on Friday afternoon last, when he addressed a mass meeting of the Women's Institutes of the Kelowna district in the Women's Institute Hall, Glen Avenue. He brought with him many samples of B. C. products manufactured in the Greater Vancouver area, which were distributed among those present at the conclusion of the meeting, and in an entertaining manner told the story of each and what their purchase meant to the general prosperity of all residing in this province.

In the members of the Women's Institutes, who throughout British Columbia are persistent advocates of home buying, Mr. Champion found enthusiastic and sympathetic listeners. Friday's gathering represented the buyers of necessities for a large number of homes, and if all follow the suggestions of the speaker and spread the gospel among their friends, B. C. products in a very short time will predominate over all other competitive lines.

Introduced by Mrs. Phillips, President of the Winfield Institute, who occupied the chair, Mr. Champion remarked that a year and a half had passed since his last visit to Kelowna. He congratulated the Kelowna Institute on the acquisition of their splendid new hall, and thanked Mrs. H. P. Duggan, Secretary of the Winfield Institute, for making the mass meeting possible.

B. C. Products Week Postponed To Fall

It had been the original intention, said Mr. Champion, to hold a B. C. Products Week in Kelowna this spring, but as business men had advised against it, stating that the time was inopportune, it had been decided to postpone the week until fall, when he would be glad to give all assistance possible. He would canvass Vancouver and Victoria manufacturers for displays, but the idea of a B. C. Products Week was not to exhibit all Vancouver products. Store windows should be filled with valley produce, as in the Okanagan the Okanagan should come first. B. C. came next, then Canada, then the Empire.

Market For Home-crafts

Mr. Champion was agreeably surprised with the display of home-crafts exhibited by the various Institutes in the hall on that day. The pine-needle baskets and many other articles of special mention and he thought that the latter might be placed on the market in Vancouver. There was a wonderful market for walnuts. He would try also to find a buyer for knitted woolen mitts, samples of which were displayed by the Westbank Institute.

"If the Okanagan can be made a prosperous district," said Mr. Champion, "Vancouver will reap the benefit, and if Vancouver is prosperous so will the Okanagan benefit."

Work Of B. C. Products Bureau

The B. C. Products Bureau of the Vancouver Board of Trade had been in operation for ten years and received a yearly appropriation of \$15,000 with which to carry on its work. Advertising was carried on in the newspapers and all publicity possible was given to encourage the purchase of home-made goods. It was his duty to call at factories and study the products turned out and to compare them with imported competitive goods. He had had thirty-five years experience in merchandising to qualify him for the work. It was also his business to interview large buyers and ask them why they did not buy B. C. products. They were usually quite frank with him, and it enabled him to go to the producers and tell them what to do. The Bureau watched the contracts that were awarded for all work going on within the province, and it got in touch with the contractor in the interests of the B. C. manufacturer, accomplishing great work in this way.

That the present depression was the greatest thing that ever happened was the opinion of Mr. Champion, who declared that "we will come out of it a clearer thinking people." The B. C. products movement has changed merchandising in Vancouver," he said. "Women are asking 'Where is the article from?' If you ask for B. C. goods, the merchants will stop. They are in business to give you what you want."

The "Where From" Movement

Until last year, the speaker continued, the Women's Institutes were the only organizations taking an interest in the promotion of B. C. products. Last year, however, a council of women in Greater Vancouver began a "Where From" movement, signing up 20,000 women who pledged themselves not to buy goods without asking that question. This year they hoped to sign up 20,000 more to further this great movement.

WHY SWARM CONTROL IS PRACTICED

(Experimental Farms Note)

In years gone by the beekeeper measured his success by the number of swarms given off by his apiary, and it was these swarms that were depended upon to yield the surplus honey. Before the advent of the honey extractor

the heaviest of the swarms were carefully selected in the fall of the year, the bees were then killed by sulphur fumes and the honey extracted from the combs by first crushing them and then straining. It would appear that this practice gave rise to the old dog-gery!

"A swarm of bees in May is worth a load of hay,"

KELOWNA SEA CADET CORPS

"Keep Watch"

Boat Crews

Under the direction of the Commanding Officer and P. O. Gore, some very good work is being done by the two crews, senior and junior. The senior crew gets out before breakfast on these fine mornings and develops some big appetites. If the practices keep up the present standard of quality, there will be no doubt about giving the Admiral a creditable show.

One factor which is destroying the efficiency of our crews is the deplorable habit which some fellows have of putting all their energy into the manipulation of their tongues instead of the oars. It is essential that only the voice of the instructor be heard during practices so that all may hear the orders given and the advice of the instructor.

The junior crew is shaping splendidly and our boat's crews should be a source of interest to the Admiral.

On Sunday, April 26th, the junior crew under P. O. Gore rowed over to Bear Creek, combining a hike with the rowing instruction.

Improvement In Uniforms

There was a great improvement in the appearance of the corps at the last parade, but we are far from a high standard yet. Keep on improving until the inspection, and then we are sure to make a favourable impression.

Friday, April 24th

7.30.—Parade fell in.

7.40.—Squad manoeuvres.

8.00.—Watches fell in for instruction.

Probationers compass instruction—Ldg. Cadet Mathie.

Cadet compass instruction.—P. O. Gore.

Lead and line instruction.—C.P.O. Buckley.

Port Watch rigged jack-stay.

Knot instruction.—Cadet Pearson.

Cadet Clark passed knot test.

8.30.—Watches fell in. Parade dismissed.

Present.—Cadets, 28; Officers, 1.

C.P.O. SHELLBACK.

"Papa will be unstrung," said the

clinging maiden. "That's all right," replied the groom. "We'll wire him."

Most of the people who argue with us are like mermans—they haven't a leg to stand on.

STAGE STAR PLANS TRANSATLANTIC FLIGHT

Marion Eddy, American stage and radio star, who plans a transatlantic flight from London to New York in the near future. BOY SCOUT COLUMN

1st Kelowna Troop

Troop First! Self Last!

Edited by S.M.

April 28th, 1931.

Orders for the week ending May 7th, 1931:

Duties: Orderly Patrol for the week.

Others: next for duty, Beavers.

Rallies: There will be no parades in the Hall on Friday, May 1st, on account of the Musical Festival, but on Saturday afternoon, May 2nd, we will hold a short hike, for which we will meet at the back of the Hall at 2 p.m.; no bicycles will be used on this trip.

As usual, the Troop will parade in the Scout Hall on Monday, the 4th May, at 7.15 p.m., in full uniform.

We are very glad indeed that Mr. W. B. Breden is going to be able to assist us in this year's entertainment by putting on a short skit. The display is getting very close now, and much depends on the efforts of the individual Scout in making this year's performance as great an achievement as those of other years. We expect to have the tickets ready some time next week, and there will be the usual prizes for those Scouts who succeed in selling the greatest number.

The badge earning is beginning to brighten up; several members of the Troop have passed tests this week.

Scout Shugg is to be congratulated on having completed his Second Class Badge and also in obtaining the Musician's Badge, thus gaining 150 points for his patrol in the current competition.

Scout Sanger passed his Second Class Cooking test on the 18th inst. Scout Ward completed his Second Class Ambulance test, and Scouts Scrim and Rattenbury passed the "Points of the Compass," before A.S.M. Treadgold on the 27th inst.

At the Court of Honour held recently, it was decided that, after this, shorts would be required in order to get marks for full uniform when on parade.

During the fall and winter months, when the weather is too cold to wear shorts, marks are given for full uniform, providing the hat, shirt and scarf are worn.

It was too bad that the hike last Saturday afternoon had to be cancelled. Unfortunately, the weather man was not very kind to us and everything was so wet that there would have been very little pleasure in trekking through the bush.

We were very glad to see ex-P.L. Herbert Aitken in our midst once again on Monday evening, and it is really very gratifying to learn that he intends helping us out until he returns to the University in the fall. A thousand times welcome, Herbert!

A swarm of bees in June is worth a silver spoon.

A swarm of bees in July is not worth a fly.

The early swarms were the best, for they would give more honey and possibly other swarms. Swarming usually occurs just before or during a heavy honey flow and the swarm is mostly made up of the field bees of the colony.

A certain amount of time is wasted by the bees in making the necessary preparations for swarming and there is almost an entire cessation of honey gathering from the time the swarm issues until it is again housed in a new home; therefore, if the swarm issues when there is a honey flow of eight to ten pounds per day, the total crop of the colony will be greatly reduced because of swarming. Furthermore, swarms sometimes have the habit of absconding for parts unknown and when this occurs both bees and crop are lost.

Swarm control is practised because it has been proven that, if the bees can be kept contentedly gathering nectar and not wasting time in swarming, larger crops of honey will be obtained. The Bee Division of the Central Experimental Farm at Ottawa have devised methods whereby natural swarming can be prevented and which at the same time allows for controlled increase in the number of colonies. Write for Bulletin No. 33, New Series, if you are interested.

C. B. GOODERHAM,

Dominion Apiarist.

1ST RUTLAND TROOP

"Do A Good Turn Daily"

Orders for the week ending May 7th, 1931:

The Troop will parade in the woods opposite the store, in full uniform, on Friday at 7.45 p.m., for scouting games and a camp fire.

Attendance continues good, only the Kangaroos being low in numbers at last week's meeting. Several tests were passed, many trying "Scout's pace," only one passing this, however.

It has been decided not to take the concert to any other district this season, owing to difficulty in arranging dates that would not clash with other events.

A. W. GRAY, Scoutmaster.

CHURCH NOTICES

ST. MICHAEL AND ALL ANGELS

Corner Richter Street and Sutherland Avenue.

May 3rd, Fourth Sunday after Easter.

8 a.m., Holy Communion.

9.45 a.m., Soldiers of the Cross and Girls' Bible Class.

Parents and pupils will please note the change in the time of meeting from 2.30 p.m. to the above time.

11 a.m. Morning Worship. Sermon subject: "Peter, the man of instability and the Apostle of reliability," third sermon in the series "The Inner Circle."

7.30 p.m., Evening Worship. Sermon subject: "The Impossible Christian Injunction," third sermon in the series: "Dare we be Christians?"

8.45 p.m. The Young People's Department will meet in the Church Parlour. All young people are invited.

Tuesday, May 5th, the Official Board will meet in regular session in the Church Parlour at 8 p.m. All members are expected to attend.

FIRST BAPTIST CHURCH

Rev. D. J. Rowland, Pastor.

Friday, May 1st, 8 p.m. Prayer, Praise and Bible Study Hour. All who believe in prayer are cordially invited to this meeting.

Sunday, May 3rd, 10.30 a.m., Sunday School and Bible Classes. Lesson: "Jesus in the home of Zacchaeus"—Luke 19: 1-10.

11.30 a.m., brief service of worship. Subject of sermon: "If Christ came to Kelowna—what?"

In connection with the morning service, the Lord's Supper will be observed.

BETHEL REGULAR BAPTIST CHURCH

Richter Street. Pastor, Mr. G. Thornber.

Sunday School and Bible Classes at 10.30 a.m. Morning Worship at 11.30 a.m. Gospel Service at 7.30 p.m.

Praise and prayer meeting on Wednesday, at 7.30 p.m.

On Sunday evening Rev. S. Cassells, of the Soudan Interior Mission, will speak (D.V.). On Monday, May 4th, Rev. S. Cassells will give a lantern illustrated address on the work of the Soudan Interior Mission.

A cordial invitation is extended to all to come and worship with us.

SALVATION ARMY

Sunday 11 a.m., Holiness Meeting.

2.30 p.m. Sunday School. 7.30 p.m. Salvation Meeting. Public Meeting. Thursdays 8 p.m.

CHRISTIAN SCIENCE SOCIETY

Sutherland Block, Bernard Avenue, opposite Royal Anne Hotel

This Society is a branch of The Mother Church, the First Church of Christ Scientist, Boston, Mass. Services: Sunday, 11 a.m., Sunday School, 10 a.m.; first Wednesday, Testimony Meeting, 8 p.m. Reading Room open Wednesday and Saturday afternoons, 3 to 5 p.m.

GLENMORE

Mrs. Tinkler, of Vancouver, is visiting at the home of her sister, Mrs. W. R. Hicks.

Mrs. J. O. Noyes returned to her home in Naramata on Friday last.

Ten little children made a very interesting party at the home of Mrs. R. W. Corner on Monday, when she entertained in honour of the fourth birthday of her little daughter, Catherine.

At the regular meeting of the Glenmore Council on Monday, April 13th, the Tax Rate By-Law of 10 mills was passed, there being no change from last year's rate.

Our Amateur Dramatic Society held a card party on Wednesday, April 22nd, at the home of Mr. and Mrs. S. Macro. Each member was asked to make up a table and thirteen tables were played.

Mrs. Tinkler won the ladies' prize and Harold Watson the boys' prize. Mrs. P. A. Lewis and George Reed, Jr., received consolation prizes.

After a dainty lunch, Mrs. G. H. Moubray and Mr. Macro provided music for a short dance programme.

The members of the Dramatic Society are very appreciative of the kindness of Mr. and Mrs. Macro in lending their house for the occasion.

Miss E. Reed returned home from the Kelowna Hospital on Tuesday.

Our sympathy is extended to the family of the late Mr. S. T. Elliott in their bereavement. Though not a resident, Mr. Elliott has held property in Glenmore for a number of years.

Ranchers have been busy using food water during the past week.

The Community Supper has been arranged for Friday, May 8th, at 6.30 p.m. A programme which should prove very interesting has been arranged for the evening.

The boys have started softball and had their first practice on Monday evening.

Statistics show that a college professor's chances of long life are better than a blacksmith's. This is not surprising, because a college professor is never called upon to shoe mules. He only teaches them.—Nelson News.

FULL GOSPEL TABERNACLE

Lawrence Avenue.

Sunday, 11 a.m., Fellowship Service.

Sunday School, 3 p.m., a class for all.

Sunday, 7.30 p.m., Evangelistic Service.

Tuesday, 8 p.m., Prayer Meeting.

Thursday, 8 p.m. Lecture on the Book of Revelations. All are welcome.

Pastor, Rev. C. B. Close.

SEVENTH-DAY ADVENTISTS

Church services every Sabbath (Saturday) at 11.30 a.m. at Rutland. All are welcome. Minister, R. S. Greaves.

LUTHERAN CHURCH

Rev. W. L. Zersen, Pastor, phone 655R

I would like to call the attention of the radio listeners every Thursday evening, at 7 o'clock, over the Columbia Broadcasting System of stations, Dr. Walter A. Maier, of our Concordia Seminary at St. Louis, Mo., delivering the address. The chorals are Lutheran chorals sung by Lutheran choirs. The station most easily reached here is KFRC, San Francisco. Services will be announced later.

GUILD OF HEALTH

Scripture Study for all interested in the subject of Spiritual Healing.

May 1st, John 14: 15-31. May 2nd, Mark 2: 12-36. May 3rd, Luke 24: 36-53. May 4th, I Cor. 2: 1-16. May 5th, Luke 9: 10-27. May 6th, Rom. 8: 1-11. May 7th, Luke 10: 17-24.

The most marvelous door in the world, the most magic portal is that little door that leads from the visible world, the world that breaks your heart, into the invisible world of thought, imagination, of love and peace, so silent and vast, where you may always be healed and forgiven, where love and truth are law, where Eternity is all, time is nothing! It is the House of Christ! Find it and you find Him and finding Him, you find joy and peace and health.

THURSDAY NEXT, MAY 7, 1 p.m.

PEACHLAND

RUTLAND

Mrs. S. Dudgeon has returned from an extended visit to relatives in Ontario.

Mr. Fred Blenkarn is on a visit to Rutland, coming up from Cloverdale last week.

Representatives of the West-Canadian Hydro Electric Corporation were in the district on Monday looking over the power prospects. Possibilities of electric light and power being shortly available are good.

Mr. Thomas Maxwell has been appointed to take the census in June next for the district of Rutland.

A very successful Well Baby Clinic was held in the Hall on Friday last. Thirteen lusty infants were examined by Dr. Ootmar and Mrs. Grindon.

A practice game of baseball was played on Sunday between Kelowna and Rutland teams. A lot of new players were in evidence on both sides. Rutland won out by 9 runs to 7, in a full time game. Batteries were: Rutland: Bach and Kitch; Kelowna: Woods, Taft and Neid.

Softball is to be played locally this season, it seems, but no entry will be made in the Kelowna League. Possibility of forming a league of three or

"PROVINCIAL ELECTIONS ACT"

South Okanagan Electoral District

NOTICE is hereby given that I shall, on Monday, the 18th day of May, 1931, at the hour of 10 o'clock in the forenoon, at the Government Sub-agent's office, Bernard Avenue, Kelowna, hold a sitting of the Court of Revision for the purpose of revising the list of voters for the said Electoral District, and of hearing and determining any and all objections to the retention of any name on the said list, or to the registration as a voter of any applicant for registration; and for the other purposes set forth in the "Provincial Elections Act."

Dated at Kelowna, B. C., this 10th day of April, 1931.

H. B. CAMPBELL,

Registrar of Voters,

South Okanagan Electoral District.

36-4c

four teams in Rutland is being considered.

The marriage of Bernard Heintzman, of Kelowna, and Emma Schneider, second daughter of Mr. Joe Schneider, of this district, was celebrated on Tuesday morning in the local Catholic Church by Father Jansen, and after the ceremony the friends and relatives adjourned to the home of the bride's father, and in the evening to the Community Hall to make merry till the wee small hours of the following morning. The happy couple will take up their residence in Kelowna.

The Municipality Committee presented a report at the regular meeting of the Farmers' Institute, held in the Community Hall on Monday evening. Attendance numbered 27 growers. The report was in the nature of a progress statement, the committee not being prepared to make recommendations at present but wished to make further investigations and to await information available from the forthcoming census.

Following are the salient points of the report:— The proposed boundaries to be, north and west, present school district boundary; south, Mission Creek; east, the B.M.I.D. northern extension ditch, and a section line connecting nearest point of that ditch to Mission Creek. The assessed value of this area is \$705,000.00. The population is estimated at 1,000 to 1,200. Present taxes raised, exclusive of school tax, are believed to be \$3,500.00. Amounts available from government grants total \$4,080.00 on a school population basis of 240 pupils. These grants are made up as follows:

Share of Liquor Profits.....\$2,424.00

Share of Pari Mutuel.....380.00

Share of Motor Vehicles.....\$1,276.00

Tax.....\$4,080.00

Road mileage for the district was given by the Road Superintendent at 56½ miles. The district was charged about \$1,000.00 for collection of school taxes by the Government. This amount, coupled with grants and present taxes, would give the sum of \$8,500.00 available for administration and road maintenance costs, without any increase of present taxation.

The Government spent \$2,000.00 in labour costs on the Rutland roads in 1930. Glenmore's cost of administration was \$1,500.00 during the past year. Cost of necessary grader equipment and costs of policing and hospital grants were still to be ascertained by the committee.

Information had been obtained from Glenmore, Coldstream and Summerland municipalities. Glenmore pays the Reeve \$200 per annum, and Councillors \$5.00 per meeting. Coldstream Council and Reeve receive no remuneration. Glenmore pays the Municipal Clerk about \$750.00 per year. Coldstream pays a clerk, who is also magistrate and a number of other officials rolled into one, \$150.00 per month and 10c per mile for car expenses.

A resolution was passed adopting the report and authorizing the committee to continue the investigations, and extending a vote of thanks to them for work done to date.

Considerable discussion took place, and in the course of this Mr. F. Swainson gave some valuable information as to road costs and equipment. He expressed the opinion that we possess in Rutland one of the best road propositions in B.C. He considered that a truck and grader and two permanent officials would be necessary. Cost of a truck he put at \$2,500.00, with a life of eight years, and a grader suitable for the purpose at \$1,000.00, with a far greater life than the truck. Labor costs, he estimated, should not exceed \$2,000. Apparently about \$3,000 per annum would give continuous road service and take care of cost and depreciation of equipment. The truck would be used, he suggested, to haul the grader, at other times hauling shale and gravel.

Mr. A. L. Baldock spoke strongly in favour of the municipal proposition, recalling the fact that twenty years ago Kelowna itself had a population of hardly more than we have today and a school population of only 250. He thought we should be looking to the future and trying to improve conditions in our community. Several questions were asked and doubts expressed by some in the meeting but no one present came out flat-footed in opposition to the idea of incorporation.

The other item on the agenda, the by-products situation, was then aired.

Mr. R. B. McLeod gave details of our interview with Mr. G. B. Munro, Deputy Minister of Agriculture, in which he stated that no financial assistance would be given the co-operative company recently organized.

Mr. T. G. S. Chambers then gave the meeting some interesting information on the newly incorporated Fraser Valley Wineries, Ltd., of New Westminster, B.C., which, he stated, had a capitalization of \$200,000.00, of which \$120,000.00 was already subscribed. This firm held sole rights to a patented process found very successful in Europe, and he stated that they planned to use 2,500 tons of cull apples from the valley this year.

We regret to learn of the departure in the near future of Mr. H. LePargneux, who has sold his property here and will reside in Kelowna. Mr. LePargneux has been a good community worker and will be greatly missed.

BENVOULIN

Worship at the United Church of Canada next Sunday, at 3:00 p.m.: Rev. A. McMillan, minister, will give one of a series of sermons on the Ten Commandments, his subject last Sunday being, "Thou shalt have no other gods before me."

Church School at 2:00 p.m.

We are very glad to report that Mrs. Ed. Coelen is improving nicely at the General Hospital.

Mr. Weeks, Jr., is convalescing these days, after being in the General Hospital for a few weeks.

A programme tram full of wonderful attractions, something new and entirely different, on the 23rd July.

SOLE WOMAN ENTRY IN INTERNATIONAL SPEEDBOAT MEET

Miss Loreta Turnbull of Monrovia, Calif., America's girl speedboat champion, at the wheel of her speedboat, "Sunkist Kid V," in which she will be the sole woman entry in Italy's international meet at Lake Garda, opening May 7th.

WESTBANK

Mrs. Miltenberger arrived home on Thursday morning from Kelowna Hospital with her infant daughter.

A son arrived for Mr. and Mrs. Hasbe on Thursday morning. Nurse Barton, V.O.N., was in attendance and everything was safely over before the doctor arrived from Kelowna.

Mrs. Harold Cornish is another new mother who has returned home from Kelowna with a fine baby girl.

Miss Charlotte Brown returned from a visit to Mrs. and Miss Bonner at Oliver, on Saturday.

The million dollar rain which fell on Saturday left a goodly portion in the Westbank district, saving a lot of onions and freshening up the country generally. Cherries, peaches, pears and crab apples are making a beautiful show of bloom, with promises of a heavy crop.

Miss Barton, V.O.N., held a Well Baby Clinic in the Community Hall on Tuesday afternoon. As usual, it was well attended and is an event mothers look forward to.

On Friday night a Military Whist Drive was held in the Community Hall. About forty were present and enjoyed a jolly evening. Mr. W. Ball donated the prizes which were won by: ladies, Mesdames Washington Brown, E. C. Paynter, M. J. de Puyffer and Miss Jean Brown, and the boobies by Messrs J. W. and L. Hannam, Earl Lundin and Richard Rolke. A good supper was served and about \$14.00 collected for the building fund.

The regular meeting of the U.W.A. was held at the home of Mrs. J. Gellatly on Tuesday, April 21. After the usual business was disposed of, the membership competition between the Reds and Blues was brought to a close. The Reds "saw red" as the Blues had twenty-two members while they had only nineteen. The Reds are to decide what the treat is to be. Tea was served by Mrs. J. Gellatly, Mrs. Tolhurst and Mrs. Gore.

The next meeting will be held at the home of Mrs. R. Currie on Thursday, May 28th, Mrs. D. Smith and Mrs. Dick assisting as hostesses.

The Badminton Club spent a delightful afternoon and evening on Saturday, when the East Kelowna club visited Westbank. The result of the tournament was a home win. Afterwards many friendly games were played till the visiting club left for the 9 o'clock ferry. Mrs. M. J. Jones and Miss Edwina Paynter were in charge of the tea and Frank Jones was secretary pro tem. The badminton season will close on Thursday after a perfectly happy and harmonious term, made particularly so by our excellent secretary, Mr. M. J. de Puyffer.

Bonds for Salmon Arm's new water extension were sold to A. E. Ames & Co., Ltd., Vancouver, at the price of \$102.526, a gratifying figure. The bonds are at 5½ per cent and will run for forty years.

California has more daily newspapers than any other state in the union.

WHERE MOTHER KILLED HER BABY AND HERSELF

Above is shown the farm house at Stouffville, Ont., in an outhouse of which Mrs. Fred Stephenson killed her two-year-old baby, then herself, with a razor, making good an oft-repeated threat that she would take her child out of the world.

Condemnation of the Penticton Police Commission expressed through a no-confidence vote, a demand that a firm of chartered accountants be brought in to audit the books for 1928, 1929 and 1930, and a proposal that the local authorities investigate possibilities of provincial policing the municipality, featured a meeting of the Penticton Ratepayers' Association recently. Not long ago the Commission called for the resignation of Chief of Police Davies, and the action has been vigorously protested by the large majority of rate-payers.

A return to femininity is predicted by the fashion experts. This is a bit of a blow to those women who have given up cigarette smoking with the idea of looking more manly.—Punch.

THE KELOWNA COURIER AND OKANAGAN ORCHARDIST.

Owned and Edited by
G. C. ROSE

SUBSCRIPTION RATES

To all points in Canada, outside the Okanagan Valley, and to Great Britain, \$2.00 per year. To the United States and other countries, \$3.00 per year.
Local rate, for Okanagan Valley only: One year, \$2.00; six months, \$1.25.

The COURIER does not necessarily endorse the sentiments of any contributed article. To ensure acceptance, all manuscripts should be legibly written on one side of the paper only. Typewritten copy is preferred.

Letters to the editor will not be accepted for publication over a "nom de plume"; the writer's correct name must be appended.

Contributed matter received after Tuesday night may not be published until the following week.

ADVERTISING RATES

Contract advertisers will please note that their contract calls for delivery of all changes of advertisement to The Courier Office by Monday night. This rule is in the mutual interests of patrons and publisher, to avoid congestion on Wednesday and Thursday and consequent night work, and to facilitate publication of The Courier on time. Changes of contract advertisements will be accepted on Tuesday in an accommodation to an advertiser confronted with an emergency, but on no account on Wednesday for the following day's issue.

Transient and Contract Advertisements—Rates quoted on application.

Legal and Municipal Advertising—First insertion, 15 cents per line, each subsequent insertion, 10 cents per line.

Classified Advertisements—Such as For Sale, Lost, Found, Wanted, etc., under the heading "Want Ads." First insertion, 15 cents per line; each additional insertion, without change of matter, 10 cents per line. Minimum charge per week, 80 cents. Count five words to line.

Each initial and group of not more than five figures counts as a word.

If so desired, advertisers may have replies addressed to a box number, care of The Courier, and forwarded to their private address, or delivered on call at office. For service, add 10 cents to cover postage or filing.

THURSDAY, APRIL 30th, 1931

A BUREAU FOR DATES

The clash of dates on Tuesday evening between the Canadian Club dinner-meeting, at which Mr. P. B. Fowler, of Victoria, was to have delivered an address, and the lecture by Mr. R. J. Cromie, editor and publisher of the Vancouver Sun, brings sharply to attention the need of some means of avoiding any such conflict of public events. The cases referred to are quoted simply because they are recent, not because such incidents are infrequent.

A date should not be set for any public event without enquiry as to whether it will interfere with any other event, and, if an adequate report of the proceedings is desired, consideration must be given also, to the convenience of the press. It is obvious that Wednesday meetings necessarily inflict hardship on the newspaper that has to cover them, as they cut into the routine work connected with publication, and it is practically impossible, under the conditions governing the issue of a weekly newspaper, to give a full report the following day of a Wednesday evening event.

People who attend two public events on two consecutive evenings feel somewhat exhausted afterwards, so perhaps they can realize in a measure how fagged out is the rural newspaper scribe who, besides slogging away all day, covers a meeting on Monday night, another on Tuesday night, works in the office until near midnight on Wednesday and on top of it all next day has the rush and nervous strain of publication and a race against time. If for this reason only, the spreading of dates of events becomes an act of kindness and consideration for others, while the bunching of them is nothing short of cruelty to animals.

To promote happiness and efficiency all round and the largest possible attendance at all events, it is suggested that a bureau for dates be operated in connection with the Board of Trade, at whose office a register could be kept, in which all organizations would be requested to enter their dates for at least a month ahead. Enquiry at the bureau would reveal whether a date was available, or whether already occupied, clashes would be avoided, likewise the hard feelings that inevitably follow in many cases, and it would be possible to deal more efficiently with the requisite publicity.

PACIFIC TRADE SOLUTION FOR PRESENT ILLS

(Continued from Page 1)

said: "Suffer the little children to come unto Me."

Along The Equator

Sketching Siam, Sumatra, Java, the Malay Peninsula, Singapore and the Philippines, Mr. Cromie conveyed the impression of countries with rich soil, a heavy rainfall and a hothouse climate in which all things grow rapidly and fade, including human beings, with equal speed. The United States had given the Philippines good government but was hated by the people as its reward.

India

India was one-third the size of Canada but had 325,000,000 people, and the average income per family was \$40 a year. It was a "piece" country. A piece was a quarter of a cent, and everything was on a piece basis. He had the impression before he visited India that the British were bedeviling the country, and were parasites, but such was not the case. The real parasites were the sacred cows, monkeys and other animals that destroyed the crops. The Hindus would not kill any living thing, even rats. Other parasites were lack of sanitation, child marriage and the native princes, who possessed enormous wealth. Describing Calcutta, Benares, Lucknow and the beautiful Taj Mahal, which he visited nine times in three days, he finished his account of India with the conclusion that her problem was economic rather than political.

KELO KER'S COLUMN

(An Occasional Pot-Pourri)

Another Musical Festival is under way and your reporter has his sensitive (?) ear attuned to the melodies rising to the rafters of the Scout Hall. To the idea of removing anomalies (what ever those things are), I have heard a lot about notes and bars and things, and I am told that each signifies something or other, but the only key with which I am familiar is a door key. All of which makes me an excellent critic. These fellows who know all about music and its idiosyncrasies are burdened with so much learning they hardly know where to begin or leave off.

I am not troubled that way. With me, music is good or bad. There is no reason why I should waste columns of space floundering round to tell you why.

One of Kelowna's aldermanic sages thinks civic employees should take a cut in their salaries. It's an ideal method to promote efficiency, but, of course, the alderman was studying his economics when he made the suggestion.

It is my humble opinion that good salaries and good work are handmaidens. Reduce a man's income and you take away some of his self-confidence, apply the brakes ever so slightly to his conscientious endeavour, check his initiative and make him feel his worth has been over-estimated.

There is nothing wrong with the City Council's proposed investigation of the wages paid to employees with the idea of removing anomalies (what ever those things are). But it would appear, in view of the growth of this city in the past decade—in which time some employees have received no increases—that the trend in those cases should be skyward rather than a descent to lower levels.

The Council should be congratulated upon keeping the mill rate at 4.5. But let's hope the Fathers won't practise false economy.

Oh, oh, now I am in trouble. An irresistible little school teacher sold me a ticket on a hope chest—a walnut, cedar-lined chest containing a "large assortment of linens, etc." The draw is being conducted by the Girls' Hospital Aid, and if I win I can see the beginning of all sorts of grief. . . . unless, by chance, the little school teacher comes with the otherwise worthless prize.

Maybe, now, I could use a hope chest—who knows? Instead of the girl coming to me with that feminine necessity, in my masculine magnificence, I could take it to her. If I win, designing females will be laying traps to catch me—or is it the hope chest they are after? Anyhow, it isn't every bachelor who joins the benefactors with an opulent hope chest in his possession. Some one should create a precedent.

I'm sure the boys at the Fire Hall would be tickled pink to have a hope chest nestled under the sacred precincts of its dome. Isolated from fair femininity as they are, they could revel in its contents and become good family men.

We are advised continually to "Buy B. C. Products." But is that anything more to me or you than a slogan? Let's be frank. In some cases, it is not. We buy what we want, if we have the cash with which to buy it. Too often we do not stop to think that the thing we have bought was made in another country, and that an article equally as good and at no higher price is obtainable with the label "Made in Canada."

One man who lives "B. C. products" day and night (I'll bet he even dreams about them) is Leon Champion, of the B. C. Products Bureau of the Vancouver Board of Trade. If you do not know him you may have the impression that he is boring, so eager is he to build up a British Columbia for British Columbians. But he is a most interesting and convincing talker, and his talk is backed by action. Through his untiring energy, we in this province are spending more money on home made goods every year, building up payrolls in B. C., helping home manufacture, giving our boys and girls employment at home.

Funny, too, we don't have to be complacently loyal to buy B. C. stuff. There's so much of it better than a lot of the imported trash gobbled up by the gullible.

Europe

Passing through Egypt, Mr. Cromie vividly sketched the Valley of Kings which took one back four thousand years. Commenting on the supremacy once held in ancient times by the Mediterranean, he said its day had passed. It had been supplanted in importance through the changes wrought by the cutting of the Panama Canal.

Palmer did not measure up to expectations in many respects. The Jordan, for instance, could be crossed in two jumps. The further one was away from some of those things, the bigger they seemed.

Greece was characterized as a poor, dry country, without money but rich in history. Italy was indebted to Mussolini for arousing its national spirit, but he had carried out his educative work, and it would be much better for Italy and for himself if he could now fade out of the picture. Pompeii and Rome were crisply described, but what struck Mr. Cromie most forcibly was the simple Italian joy of living and contentment with simple pleasures, an art of living that Canada had yet to learn.

Belgium and Holland impressed Mr. Cromie by their small size as compared with their dense population. France was a rich country, yet the one in the world in which things were really done economically and there was no waste. Germany was coming back in a big way. Russia he had not visited, but he advocated cultivating friendly relations with that country.

His mother was English and his father Irish, and he felt the call of the

Tons of laughs, tons of fun; it will be different, too.—July 23rd.

also that there is not more than two per cent of chlorine in the fertilizer. This last provision is to ensure a proper proportion of the potash in the form of sulphate, which is regarded as essential for tobacco.

This change has been prompted by a recommendation received from the Special Tobacco Fertilizer Committee of Ontario, the members of which have charge of the tobacco experimental work in this province, which produces most of the tobacco grown in Canada. In conjunction with this recommend-

ation, resolutions were received from organizations of tobacco growers requesting that the Fertilizers Act be amended to require the labelling further information indicating the constituent materials used to provide the nitrogen and potash required in tobacco fertilizers.

A programme crum full of wonderful attractions, something new and entirely different, on the 23rd July.

TENDERS WANTED

Tenders will be received by registered mail, addressed to Secretary, Kelowna Fire Brigade, marked on sealed envelope "Tenders for Fire Hose," until May 27th, 1931, for:

2 1/2-inch C.R.L. fire hose, complete with couplings.
10 feet 3/4-inch C.R.L. double jacket hose, fitted with couplings supplied by K.V.F.B.
One 50-foot length 1 1/2-inch unlined linen hose, best grade, complete with couplings, nickel-plated.

Quotations to be f.o.b. Kelowna. The lowest or any tender not necessarily accepted.

(NOTE.—Tenders for 2 1/2-inch hose must not exceed \$1.25 per foot. Samples must be sent of all hose tendered upon.) 38-1c

New Arrival

"I hear the Smiths have a new baby?"
"Really? A vamp or a sheik?"

Local and Personal

Mr. and Mrs. F. C. Brown, of Vancouver, are guests of the Royal Anne Hotel.

Mrs. W. R. Foster left last Friday on a trip to Vancouver, via Kettle Valley Railway.

Mrs. E. E. Ramsey, of Vancouver, is visiting her parents, Mr. and Mrs. George Dillon.

County Court Judge J. D. Swanson, of Kamloops, held sessions of court, in the city this week.

Miss Pooley, of East Kelowna, was a Canadian National passenger to the Coast last week.

Rev. H. P. Barrett, Rector of St. Saviour's Anglican Church, Penitence, was a visitor in the city this week.

Mr. H. F. Gates, Circulation Manager of The Vancouver Sun, was a guest of the Royal Anne Hotel this week.

Mr. Ross Black has returned home from the University of British Columbia. He expects to spend the summer in the Kootenay.

Miss Margaret Johnston left on Sunday for the Kettle Valley Railway to spend a holiday with her relatives in New Westminster.

Mr. William Hardy, local representative of the Northwest Mutual Fire Association, returned on Monday from a business trip to the Coast.

A new Peerless electric dough-mixing machine was added this week to the equipment of Chapin's bakery. Its capacity is three hundred and fifty loaves at one mixing.

Miss Sylvia Sutton, of the English Woolen Shop, left on Monday on a business trip to the Coast. During her absence, Mrs. Hope Oswell will be in charge of the store.

Kelowna Oil Well No. 1 had attained a depth last night of 1,575 feet. The grey shale formation, which the drills are now penetrating, is a hard shale showing satisfactory indications.

Mr. Arthur G. Bennett, formerly of Okanagan Mission, now of Vancouver, spent the week-end at the Bellevue Hotel, Okanagan Mission. Leaving on Tuesday, he drove to the Coast via Wenatchee and Seattle.

A general meeting of the B.C. Tomato Growers Association will be held in the Board of Trade room on Wednesday morning next. Members are urged to attend the meeting, which will be of an important nature. 38-1p

Fire permits, authorizing the holder to burn rubbish on property in the First and Second Class Fire Limits, have been printed and are obtainable from Fire Marshal Fred Gore, Chief Pettigrew and Deputy Chief Claude Newby.

Mr. Dennis Gore, who had been employed in Coast cities for the past six or seven years, returned this week to go to work for his father at the Kelowna Steam Laundry. A former member of the Rowing Club, he will participate in that sport.

Mr. and Mrs. E. Murdoch, of Okanagan Mission, left on Friday for Vancouver, where they expect to spend about two weeks. They will attend the graduation ceremony at the University of British Columbia, at which their son David will receive his degree.

Rotarians Frank Buckland, George S. McKenzie and N. D. McTavish are in Portland, Oregon, attending the Rotary convention of this district. On their return, they will stop off at Wenatchee to attend the Blossom Festival being staged there, this week.

Work is progressing rapidly on improvements to the Lakeview Hotel, which is beginning to present an attractive appearance of chateau design. The carpenter work is being done by Mr. J. Emslie, local contractor, and Mr. J. Rossi has the contract for the stuccoing. The management intend to change the name of the well known hostelry to "The Mayfair."

THE CORPORATION OF THE CITY OF KELOWNA

TENDERS FOR MOTOR TRUCKS

Tenders will be received by the undersigned up to noon on May 11th, 1931, for the supply of two (2) Motor Trucks from one (1) to one and a half (1 1/2) tons capacity.

Trucks to be quoted with Chassis and Cab only.

Tenders must state the allowance to be made for the two (2) Ford light delivery trucks now in use by the Light and Water Department.

Full particulars to be included in each tender of the equipment offered.

The Council reserves the right to reject any or all tenders.

G. H. DUNN, City Clerk. 38-2c

PRESIDENT OF SPAIN

Alcala Zamora, leader of the Spanish Republicans, who demanded and received King Alfonso's abdication, is popular choice for president and signed his first decree as such in an order freeing all political prisoners.—Copyright, by Acme Newspictures.

Pilot Gordon "Barney" Jones-Evans has been appointed Field Superintendent of the Vancouver airport and seaplane harbour. He will have charge of all flying activities, enforcement of rules and regulations, etc., and maintenance of the port. Mr. William Templeton is the General Manager.

"The Young Idea," the University Players' Club production for 1931, will be performed in the Junior High School Auditorium on the night of May 14th. This year the play, which was written by Noel Coward, is being produced twenty-three times in different parts of the province under the direction of Professor F. G. C. Wood.

Walker Robinson, about 20 years of age, was accidentally knocked down by an automobile driven by Miss Agnes Appleby on Saturday night. Although not seriously injured, he was taken to the Kelowna General Hospital, from which he was discharged the following morning. The accident occurred on Pendozi Street at about 10 p.m., while Robinson was crossing.

Mrs. J. W. N. Shepherd, with a net score of 81, won the 18-hole monthly medal round played by the ladies section of the Kelowna Golf Club on Tuesday. The Captain, Mrs. K. MacLaren, presented Mrs. Shepherd with an engraved meat fork. Owing to inclement weather, the medal round, which had been slated for Saturday last, was postponed until Tuesday.

Mrs. Phyllis Trenwith, who entered the vocal gold medalists class in the Yale-Cariboo Musical Festival held at Kamloops last week, was the winner of a silver medal for her performance on Friday afternoon. The Kamloops Sentinel reports that she "delighted Friday afternoon's audience with her soprano solo, 'Hear Ye, O Israel,' from 'Elijah.' . . . She also sang with much acceptance Saturday night."

Mr. Ed. Jacoby, who recently returned from a visit to South Africa, addressed the Rotary Club at their regular weekly luncheon held in the Royal Anne Hotel on Tuesday. Guests included Mr. L. T. Sylvester, of Port Hope, Ontario; Messrs. R. J. Cromie, publisher of The Vancouver Sun, and F. C. Smith, of Vancouver; Mr. P. B. Fowler, Manager of the Canadian Bank of Commerce, Victoria; and Mr. H. J. Balfour, of New Westminster.

Seven cattle were found dead last week on the range of Casorso Bros., Ltd., near Scotty Creek. The carcasses were lying close together, and the slaughter has been attributed to mauling grizzly bears, although there has been no concrete proof obtained as yet. Two Indians have been traversing the range for several days but have not been successful in finding the grizzlies, although one of them sighted what he believed to be a bear early one morning.

At the regular meeting of the Kelowna Hospital Women's Auxiliary, held on Monday, arrangements were made for a blossomtime car drive. It was decided to hold this drive on Friday, May 8th, and it is hoped that a large number of citizens of Kelowna and others will avail themselves of this opportunity to see the orchards in bloom. Tea will be served either in the country or in town, and a small charge of 50c will be made covering the drive and tea. All wishing to take the drive are requested to phone Mrs. H. B. Everard or Mrs. E. M. Carruthers, so that reservations can be made.

It will be learned with general regret, especially in athletic circles, that the community is to lose Mr. B. W. Johnston, who is severing his connection with Campbell & Lewis, Ltd., in order to undertake the management of a large general store at Golden. He expects to leave about May 12th. Since the departure of Mr. J. G. McKay, "Bert" has acted as sport correspondent for The Courier and he has also won renown for his skill in broadcasting basketball games over Station 10AY. He will be much missed and his many friends wish him the best of luck in his new location.

WINFIELD

Fifteen Winfield women attended the B. C. Products meeting held in Kelowna last Friday afternoon. There was a record attendance and Mr. Champion, of Vancouver, was the principal speaker. Thirteen women attended baking classes given by Mr. Fred Duggan, sr. They can now bake anything from pancakes to cream puffs.

Will ladies please note that the date of the next Institute meeting has been changed from the regular day to May 13th, when Mrs. Atkinson, of Summerland Experimental Farm, will give a demonstration on crystallizing and drying of fruits. Any one interested is

very welcome to attend, at 2.30 p.m.

The Holton garage is nearing completion, and is quite an attractive addition to Winfield.

OBITUARY

Mrs. Emma Grant Snodgrass

The death occurred on Wednesday, April 22nd, of Mrs. Emma Grant Snodgrass, wife of Mr. F. M. Snodgrass, Wardlaw Avenue, who passed away at the Kelowna General Hospital following a brief illness. Her loss is mourned by many friends in the Kelowna district.

Mrs. Snodgrass was born in the State of Missouri 65 years ago. She had been a resident of Kelowna for some thirteen years.

Besides her sorrowing husband, she is survived by two daughters, Mrs. Goldie Fisher and Mrs. Agnes Spencer, both of Kelowna; two sons, Cecil, at home, and Archie in the United States; and one sister, Mrs. Ann Heckard, in the United States.

The funeral service was held on Saturday, at 2 p.m., from the residence to the Kelowna Cemetery, Rev. G. Thornber conducting.

The pall bearers were: Messrs. Harold Montgomery, Mark Seaton, P. O'Reilly, Chas. Nicholl, Frank Habiniski and Alexander.

Mr. Simon Tackett Elliott

Death has been taking a heavy toll among the old-time residents of the Okanagan Valley during the past year, and this week there has to be chronicled the passing of Mr. Simon Tackett Elliott, known far and wide throughout the Interior by his familiar cognomen of "Sam." For several months he has been in impaired health, through heart trouble, yet his rugged constitution prolonged his life and there was some hope of ultimate recovery, but high blood pressure over a prolonged period exerted undue strain on his heart and he passed away very suddenly, although without pain or distress, at his residence on Pendozi Street, on Monday night.

Mr. Elliott was in his sixty-seventh year, having been born in 1864 at Bluevale, Ontario, second son of James Elliott, who lived to a great age, dying a year or two ago. He came of United Empire Loyalist descent, being of the fourth generation in Canada. Learning the blacksmith trade in his youth, he migrated to British Columbia forty-four years ago, locating first at Ladang. Following his marriage in 1892 to Miss Elizabeth M. Kinsella, of Ottawa, he moved to Vernon, where he carried on his trade and later took up land in White Valley. The lure of the gold rush of 1898 took him to the Yukon for three years, his family residing for part of that time at Telegraph Creek. Returning to Okanagan in 1901, he located at Benvoulin, where he ran a blacksmith shop until 1903, when he moved to Kelowna, operating a shop on Bernard Avenue. He added agricultural implements and later was the first dealer to import motor cars for sale in the district, an early type of McLaughlin. For a time he was in partnership with the late Mr. R. Morrison, first City Clerk of Kelowna. Selling out to Coates, Edwards & Gowen, he carried on real estate and insurance for several years until 1915, when he moved to farm property which he had acquired in the Rutland district and spent four years there. Returning to town in 1919, he again entered the implement and automobile business, handling Nash and Maxwell cars.

In 1922 Mr. Elliott was appointed General Road Foreman for the South Okanagan Electoral District, and he carried out his duties with admitted efficiency until 1929, when he suffered the fate that befell many other Liberal appointees upon a change of government. He took a keen interest in his work and threw into it the restlessness that characterized him throughout his life. His enforced resignation came as a severe blow which he took much to heart, and from which it may be said that he never recovered. His health began to fail, and although he entered into the implement business once more, he was unable to resume his former activity.

Mr. Elliott was a member of the first City Council of Kelowna in 1905 and served another term as alderman in 1909. He was active in many other branches of public endeavour, being president of the Agricultural and Trades Association for several years, a loyal and energetic member of the Board of Trade, of which he was president in 1914, and local director of the Okanagan Cariboo Trail Association, for which he was a consistent booster. He was a member for many years of the Oddfellows, and was a Royal Arch Mason. In politics he adhered to the Liberal faith through thick and thin. Of tremendously powerful physique, bluff, direct and not given to tact, albeit kindly by nature, "Sam" was of the type that made staunch friends as well as deadly enemies, and the regard in which he was held was shown by the large number that attended his obsequies.

Besides his wife, Mr. Elliott is survived by five daughters, Pearl Glassford (Mrs. C. F. Mitchell), San Francisco; Ruby Margaret (Mrs. Ben Hoy), Marjorie Evelyn (Mrs. H. N. Armstrong), Ray Winnifred (Mrs. J. C. Martin), all of Kelowna, and Lillian Margaret (Mrs. L. S. Oulton), of Vancouver, also by six grandchildren. He had eight brothers and four sisters, all of whom survive him except one brother, who predeceased him. They include: Dr. W. J. Elliott, Brandon, Man.; Archibald, Walmahat, New Zealand; George, Turner Valley, Alberta; James, Bluevale, Ont.; Robert J. Nelson, B.C.; Albert, Lumsden, Sask.; Gordon, Whitechurch, Ont.; Mrs. A. Carrie, Nelson, B.C.; Mrs. McVettie, Windsor, Ont.; Mrs. Walters, Whitechurch, Ont., and Mrs. McTavish, Lucknow, Ont.

The funeral service was held at first United Church on Wednesday afternoon, Rev. A. K. McMinn conducting. There was a very large attendance and a great profusion of flowers. Masonic honours were paid at the Cemetery. The pall-bearers included Messrs. J. Bowes, of Salmon Arm, H. B. Burch, W. Haug, G. A. Meikle, J. N. Cameron and Dr. Campbell.

REDUCING CROP COSTS

The ever present problem with the farmer is how to reduce crop costs. This can be done in two obvious ways: first, producing more at the same cost; and second, producing the same at a lower cost. As a useful guide in this connection the Dominion Field Husbandman of the Federal Department of Agriculture makes the following observation:—

Perhaps the most important method of reducing the cost of producing crops is to increase the yield. Most of the items incurred in the cost of producing crops are the same whether the crop is large or small, so that every effort should be made to produce large yields by the adoption of all better farming practices.

Another method of reducing the cost of production is the use of larger machinery and more labour-saving equip-

FIRE INSURANCE COMPANY OPENS BRANCH HERE

Northwestern Mutual Establishes Office To Handle Growing Okanagan Business

Mr. J. H. Constantine, resident Vice-President of the Northwestern Mutual Fire Association, with offices in Vancouver, announces the opening of an office in Kelowna to handle most effectively the growing business of the Northwestern and its associate, the Northwest Casualty Company, in the interior of the province. The new office is located in the Casorso Block and is in charge of Mr. Wm. Hardy as resident representative. Mr. Hardy has been identified with the Northwestern for many years and enjoys a wide acquaintance with merchants throughout the province.

Discussing the 1930 operations of the Northwestern, Mr. Constantine stated: "The business of the company during 1930 was the largest of any year in its history. Premiums written aggregated \$6,713,852.98. Losses paid amounted to \$2,951,507.89, and \$1,542,114.79 was returned to policyholders in dividend savings. The policyholders' surplus was increased by \$291,369.87 and now amounts to \$4,352,172.76. Since organization in 1901 the company has paid losses aggregating \$24,707,878.89, while total dividends and savings to policyholders have reached the impressive total of \$5,882,183.07."

"As the name indicates, the Northwestern is a customer-owned, mutual company. It has at all times squarely faced the fact that a reduction of the fire loss is the only effective way to reduce the cost of insurance; that the most potent factor in preventing fire is the intelligent desire and interest of property owners in eliminating the hazards which cause fire. Its efforts along fire prevention lines have resulted in a selected body of policyholders, who expect and welcome periodical inspection of their property and who have a better-than-the-average attitude toward fire prevention."

The Northwestern and its associate, the Northwest Casualty Company, write all of the common forms of insurance except life and accident. It is the official insuring organization for the Retail Merchants Association of Canada, and maintains branch offices in Vancouver, Calgary, Edmonton, Saskatoon, Winnipeg, Hamilton, Ottawa, Toronto, Montreal, St. John and Halifax.

"The need has been felt for some time for closer and more frequent contact with policyholders in the Okanagan district. Mr. Hardy is a thoroughly experienced insurance man and is in a position now to render to property holders in his territory the high type of insurance service that has placed the Northwestern among the leaders in the fire insurance field in Canada."

Considerable improvement has been made in recent years in the introduction of larger and better machinery, making possible the elimination of considerable manual labour. Where the farm is large enough to warrant the purchase of such machinery, this method constitutes an effective means of reducing costs. The substitution of more profitable for less profitable crops is another advantage which may be derived from cost of production studies.

HOSTESS TO WORLD'S W.C.T.U.

Mrs. Louise McKenney, of Claresholm, Alta., acting President of the Dominion W.C.T.U., who, with the members of the executive and Toronto W.C.T.U. officers, will act as hostess at the World's W.C.T.U. convention to be held in Toronto from June 3rd to 9th.

TWENTY YEARS AGO

(From the files of "The Kelowna Courier")

Thursday, April 27, 1911

"The Canadian Bank of Commerce opened its local branch for business yesterday."

"The new C.P.R. tug 'Castlegar' came down yesterday with a bargeload of cars. She is a very powerful vessel and she propels the barge at a good rate of speed."

"Work commenced on Tuesday on the foundations of the new bank block for the Royal Bank of Canada, to be erected next the Rowcliffe Block, on the north side of Bernard Avenue."

"The Okanagan Valley Lawn Tennis Association was organized at a meeting held last night. The following officers were elected: Honorary President, Mr. W. T. Shafford, Penticton; President, Dr. B. F. Boyce; Vice-President, Mr. Scott Allan, Vernon; Secretary-Treasurer, Rev. George Fallis, Penticton; Executive Committee: Dr. Huycke; Messrs. A. H. Bell, Okanagan Mission; H. P. Hodges, Vernon; M. C. Kendall, Penticton, and May, Summerland. It is the purpose of the Association to hold a tournament in Kelowna during the last week of June, at which about 100 players from outside points are expected to be in attendance."

At a meeting of the City Council, it was decided to employ a competent engineer to report on a sewer system for the city.

K.L.O. Notes: "Tree planting is finished and we have now another 300 acres to irrigate, but, as we have had such a good snowfall and the moisture is staying with us, little fear of a shortage of water is entertained."

"Although the spring is at least from two to three weeks later than last year, the apple blossoms are coming out and a good crop is generally expected."

EAST KELOWNA

Mr. and Mrs. Henry Armstrong returned home last week after a stay of two months in Victoria.

Mr. H. F. Reynolds has received a letter from Miss R. A. Stone, Lady Superintendent of the Queen Alexandra Solarium, asking him to convey to the pupils of East Kelowna School their sincere thanks for the exceedingly nice dolls' house—adding that the girls hope to make some furniture like that sent. Miss Stone sent a copy of the fourth annual report, which is most interesting, and to read this makes it very plain what a splendid work is being done by the Solarium, and incites all to further effort.

Congratulations to Mr. and Mrs. Fairweather on the arrival of a daughter.

Mr. and Mrs. E. B. Powell are now living in the bungalow on the Gillespie lot, while their old house is being reconstructed.

A good many members of the Women's Institute attended the exhibit of British Columbia industries which was staged through the Winfield Institute in Kelowna on Friday last.

A charming little story for children entitled "The Pickuppies" has just been published, and is written by an East Kelowna lady, "Helen Dickson" (Mrs. Reynolds), who also writes short stories for the Vancouver Daily Province. An interesting local touch is brought into the book (and also illustrated) in the introduction of the little green door in a stone gate post on the Lower Bench, which is the entrance to the home of "The Pickuppies."

There seems to be the possibility of an improvement in the supplies of irrigation water for this season in the South East Kelowna Irrigation District. We hear that Mr. Affleck, the Water Manager, after strenuous personal efforts in search of a further supply of irrigation water, has succeeded in locating a large creek which it may be possible to bring into the reservoir ("the Dam") by gravity. Mr. Affleck is now engaged in running a survey for a suitable grade, and everyone will wish him success.

It is felt that much credit is due to our Manager for his persistent efforts to help the district in this regard.

SALVATION ARMY SELF DENIAL PERIOD

General Public Invited To Aid With Donations For Social Work

Announcement is made by Major James Merritt, officer commanding the Salvation Army in British Columbia South, that the Self Denial Period, annual drive of the Army for funds in aid of its widespread social work will be observed in the first two weeks of May.

During this period members of the Army are asked to forego the enjoyment of certain non-essential articles of diet, or in other ways deny themselves and donate the money saved to this phase of Army work. All officers and members of the Army look forward to this period of self-sacrifice and enter into the spirit of the observance heartily.

"We appreciate," stated Major Merritt, in making the announcement, "that the year just past has not been as prosperous as some we have experienced in Western Canada, but when we look abroad we realize that we have still much to be thankful for. Economists and observers everywhere find on examination that our lot is to be envied as compared with that of the people of many other lands. Let us, therefore, express our thanks in practical form by giving to aid the Army in caring for those in our own midst who are less fortunate than we."

"Salvationists will do their share," continued the Major. "Each year they contribute largely to the self-denial fund and a large majority of the private members and local officers are simple working men and women whose wages are no higher than those of their fellow wage earners in industry. So we have no hesitation in asking the general public to grant us some support so that the valuable community service which we are carrying on in British Columbia shall not have to be restricted, for the need grows greater daily. We sincerely believe the work is worthy of the aid of every right thinking citizen."

OKANAGAN CENTRE

Following the telegrams sent to the postal authorities re the proposed mail delivery, by the Farmers' Institute in special meeting on Monday night of last week, a postal inspector was sent in on Wednesday to investigate the requirements of the district and on Thursday notices were sent out to the effect that the present service will be continued indefinitely.

The feature of the regular monthly meeting of the Women's Institute held at 2.30 p.m. in the Community Hall, on April 21st, was a lecture by Mrs. Hampson, of Peachland, on "The Evolution of Music and the Drama."

This looked like a very large order but in an exceptionally concise and interesting manner the speaker recounted the gradual development of music, evolving from or paralleling the mental growth of mankind. Beginning with the first notes of a reed pipe and the rhythm of bits of wood clashed together, this development was described as sweeping onward and upward through the ancient ram's horn, harp and lute, the crude organ, the spinet and harpsichord, to the wonderful modern organ, pianoforte and all the instruments—strings, wood winds, brasses, percussion—which combine to render the grand symphonic compositions of a Beethoven.

In like manner was noted the distance from the first efforts at a tune to the oratorios of Bach and Handel, and then the birth and growth of the drama was sketched and the union of the two arts in the first simple operas, followed by the Italian opera, improved by Gluck and his followers to rise to the perfection of the great Wagnerian music-dramas.

Miss Glead returned on Friday, for the long holiday from Vancouver, where she has been attending the U. of B. C.

A class in pine needle basketry has been arranged under the "Night Schools" Act by the Home Industries convener of the Women's Institute. The first session was held on last Monday afternoon, with Mrs. P. W. Pixton as teacher.

Several of the housewives of the neighborhood motored to Vernon on Wednesday last to attend the cooking demonstration put on by the Hotpoint Company.

WILSON LANDING AND WESTSIDE

Miss Betty Seymour, the eldest daughter of the late Captain C. E. Seymour and Mrs. Seymour, of Vancouver, returned home on Wednesday last via the Greyhound Stage and the Kettle Valley Railway, a very excellent example of our climate's recuperative powers, as she looked like the proverbial "picture of health." During her stay here, Miss Seymour visited many points of interest on the Westside and along Okanagan Lake, going northwards, the road being good for driving in that direction and making Vernon, as it is, a favourite point for a visit, and so cutting out the still very dangerous road to the south between Wilson Landing and Kelowna. Kalamalka Lake and Woods Lake were visited on Friday last, which, though not to be compared to Okanagan Lake for grandeur, are wonderful in their colouring and lie like jewels amongst the hills. But for lovely rides on horse-back nothing can outdo the Westside at the present time. At least such seems to be Miss Seymour's decision, after a visit extending over five weeks in this part.

Mrs. C. Browne and Miss R. A. Goodacre were visitors to Kelowna on Wednesday last.

The country shows promise of good crops in the orchards, many trees being very full of bloom, but it will not run to more than an average one as many trees are showing no blossom whatever.

The minority rule is that of the first baby.

A THOUGHT ON TRUSTS

No. 2 of a series

FOR THE AVERAGE MAN

One need not be rated as "wealthy" to advantageously use our trust service.

Many people have the idea that millionaires and near-millionaires are the only ones for whom trust service is necessary or advisable.

Quite the contrary is true.

Proper administration is just as important for an estate of moderate size as it is for a large estate.

The smaller the estate, the more important it is to conserve it carefully, getting the maximum income from it for the benefit of those dependent on it, and at the same time to guard against possible loss insofar as is humanly possible. This requires the specialized training and facilities that only a trust department can give.

Once this is realized, it is obviously advantageous for the man of moderate means to investigate the service of our trust department.

You will be interested to know how efficiently this service will help you accomplish your purposes.

You are not obligated in the least by asking us for any further information you desire about our trust service.

MUTUAL LIFE BUSINESS OVER HALF BILLION MARK

The monthly statement of the Mutual Life Assurance Company of Canada shows that at the end of March business in force exceeds \$501,000,000. A comparison of the returns of the first quarter of 1931 with those of 1930 reveals that new paid business is being maintained at practically last year's level, and that net lapses are slightly less this year than for the same period of 1930. There is also a noticeable drop in the rate of mortality of the Company.

He wasn't on speaking terms with his wife last week. He saved \$22.

A delegation of Armstrong teachers interviewed the Armstrong School Board recently, protesting against the proposed reduction in wages of ten per cent to take effect in September. They pointed out that, if the reduction takes effect, the Armstrong Public School staff will receive an average wage of \$1,143, or next to Port Coquitlam, the lowest paid city school in the province. According to the Public Schools report for the year 1929-30, the average salary paid to Kelowna public school teachers is \$1,356.

The good old days were those when you knocked at the front door Sunday-afternoon to see if the family was at home. Now you look in the garage.

CUNARD
ANCHOR DONALDSON

B. C. PRODUCTS FOR B. C. PEOPLE

(Continued from page 1)

Referring to the manufacture of Gyproc, a fireproof wallboard, which is manufactured from gypsum rock mined at Falkland, Mr. Champion stated that 1,000,000 square feet had been shipped recently to the Old Country—the largest order ever to leave Canada. Gyproc was sold in eleven foreign countries. Products made and sold in B. C. helped home industry and the merchants, with whom purchasers should not "split hairs on price," as their prices were generally reasonable. "If you always look for bargain prices," the speaker emphasized, "you will create bargain empires."

Mentioning the Canadian National Hotel, now under construction in Vancouver, as an example of the work of the B. C. Products Bureau, Mr. Champion said that a quantity of stone had to be purchased for construction purposes. The C.N.R. had to choose between the product mined at Haddington Island, in Alert Bay, a very hard stone, and a softer stone manufactured at Winnipeg, the latter product being \$120,000 cheaper on the total quantity needed than the B. C. stone. An interview was arranged with Sir Henry Thornton and other C.N.R. officials, and the advisability of purchasing the B. C. product was pointed out. The speaker was one, told Sir Henry that they wished to point with pride to the structure as being composed mostly of B. C. materials—in other words, "our" hotel. Despite the difference in price the contract was secured, and, as a result, every stone cutter in Vancouver was at work on the hard stone at \$1.25 an hour.

"We are all selling something, either a service or a product," said Mr. Champion. "B. C. products, I am informed by your local merchants, are becoming increasingly popular, and I have noticed wonderful strides in this regard in the last year and a half. You women have done wonderful things. It is a selfish, common sense argument to keep your money where it reflects to your own benefit. Every dollar sent away detracts from the power of your own country."

Imports of Competitive Goods
Referring to imports into B.C. of competitive goods in one year, for consumption in B.C. and on which duty was paid, Mr. Champion gave the figures as \$6,500,000. He enumerated the items—every one commodities that were manufactured here under different brands. These purchases represented employment for 2,000 people. "We are as capable as any other people in the world," the speaker declared.

LAND REGISTRY ACT

(Section 160)

IN THE MATTER OF Part of Lot 162, Map 521, shown on Plan B451, Osoyoos Division Yale District. PROOF having been filed in my Office of the loss of Certificate of Title No. 31753F to the above mentioned lands in the name of John Edwin Seaton and bearing date the 14th July, 1922, I HEREBY GIVE NOTICE of my intention at the expiration of one calendar month from the first publication hereof to issue to the said John Edwin Seaton a provisional Certificate of Title in lieu of such lost certificate. Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned.

DATED at the Land Registry Office, Kamloops, B.C., this 14th day of April, 1931.

R. A. BRADEN, Registrar.

Date of first publication, April 23, 1931. 37-5c

world," the speaker declared. "Let's get that feeling. There is no reason for an inferiority complex."

Samples Of B. C. Products Cover Wide Range

Samples of B. C. products brought by Mr. Champion from the Coast, which he introduced one by one, included "Dairy Maid" cheese, a product of the Fraser Valley dairies, and Wholenut Powder, made by the F.V.M.P.A. and used extensively in Kelowna by the bakeries and for making ice cream; shopping bags of kraft paper from Ocean Falls, made by the Bartram Paper Products Co., Vancouver; fancy biscuits manufactured by the National Biscuit Co., Vancouver, which was now doubling its plant capacity in the production of "Red Arrow" brand and was selling as far east as Winnipeg; biscuits and chocolates made by Ramsay Bros., Vancouver; Pacific Milk, canned by the F.V.M.P.A.; literature describing Restmore mattresses, made at Vancouver; Williams' Floor Wax, which was widely used; Nabob teas and coffees, blended and packed at Vancouver; samples of "Caribou Brand" overalls, made in miniature; "Dutch Maid" salad dressings, made in Vancouver; galvanized clothes lines, manufactured by the British Ropes factory in Vancouver; "Cottage Brand" Peanut butter, a Vancouver product; "Royal City" canned soups and vegetables; "Royal Crown" soaps; Empress jams and jellies; peels and sugared fruits, made by W. Robinson, Ltd.; Nalley's spreads and dressings; "New Wonder" whole wheat and cake flour, by the B. C. Food Products, Ltd.

Referring to a display of Imperial Oil Company products, Mr. Champion stated that that company employed some 750 people in Vancouver and loco, had an investment of \$15,000,000 in B.C., and paid \$89,000 a year in taxes. The Home Oil Distributors were also assisting to build up the province.

Winners Of Raffle Donations

Several Vancouver companies sent donations for raffle at the meeting. They were as follows:

Book of coupons good for \$5 worth of gasoline and oil donated by Home Oil Distributors. Won by Mrs. Swainson.

Pullover sweater, compliments of the Universal Knitting Company. Won by Mrs. A. McLennan.

A pair of cord overalls, sent by Gault Bros., Ltd. Won by Mrs. Draper, Winfield.

Box of chocolates, donated by Lee & Cuthbertson, Ltd., who buy fruit from the Okanagan and sell fruit flavoured for fountain drinks. Won by Mrs. Stewart, Peachland.

A vote of thanks to Mr. Champion was moved by Mrs. Venables, Okanagan Centre, and seconded with hearty applause.

Canned Goods

Mr. Eratt, of Dominion Canners, Ltd., Oliver, next addressed the gathering on the subject of canned goods, referring particularly to the Aylmer brand of canned fruits and vegetables, products of Dominion Canners, which were on display. He explained the canning process, and outlined the meaning of labels. Cans for Aylmer products were made in B.C. and most of the labels were of B.C. manufacture.

Dominion Canners spent large sums of money in the province, mainly, a considerable portion of which was spent in the Okanagan Valley.

Institute Handicrafts

Institute exhibits of handicrafts received the share of attention. Mr. Champion being one of the most interested spectators. The Kelowna Institute numbered among its displays a footstool unique in that its legs consisted of ordinary empty spools through which iron rods had been placed to hold them in position. It was constructed and upholstered by Mrs. D. W. Sutherland. The novel use of old phonograph records was shown in exhibits of stands for flower pots and vases, which had been attractively fashioned by Mrs. Hoare through heating the discs and bending them into shapes desired. Fine quality suede handbags and useful shopping bags, made by Mrs. R. T. Graham, were also outstanding in the exhibits, which were too numerous to mention in detail.

Outstanding in the exhibits of the Westbank Institute was the work of Mrs. W. J. Stevens, whose collection consisted of a large elderdown stuffed with wool obtained from Mr. A. Cameron; gloves, mitts, cushions and mats, which the Institute is turning out on a commercial scale. The display of nuts, grown by Mrs. Gellatly, consisted of the Italian chestnut, the hickory, the almond, large Welsh walnuts, filberts, the Franquette and black walnut. The pine-needle work—baskets, trays, etc.—had been neatly executed by Mrs. M. M. Gellatly. Crystallized fruit, for the manufacture of which Mrs. I. H. Howlett is well known, was also on display in the Westbank section.

A unique article in the Okanagan Centre collection was a rubber woven mat, made with automobile tire inner tube rubber, which had been cut in narrow strips and interwoven to make a useful mat. Another interesting exhibit was two pine-needle baskets and a large tray, the baskets and the edge of the tray having been skillfully executed by Mrs. Fixton. Ladies' hand-sewn chamois gloves and men's suede gloves, made by Mrs. Bond, were also on display.

East Kelowna Institute contributed excellent examples of reed baskets and trays, a large woollen muffler and various other handicrafts. Hand-woven cushion covers and bags, gloves and various commendable specimens of needlework constituted the display of the Okanagan Mission Institute, while picturesque paintings in water colours added to the attractiveness of the ensemble.

AN IOWA QUEEN OF BEAUTY

Miss Helen Manning has been elected Beauty Queen of the University of Iowa, the choice having been made by Florenz Ziegfeld, theatrical producer.

FERRY TALES

Soliloquy Of A Mosquito

Geel, but ain't I hungry. . . . and fodder is so blamed scarce these days. The passengers on this boat are getting skinnier and skinnier every year—not one good bite in a carload. . . . A lot of these girls going on diet is the devil; I have to do a lot of poking round to get one good man-sized drink of the nectar that keeps the wolf from the door. . . . Once in a while, of course, a nice plump old dear crosses on this boat. . . . and a fellow can easily take advantage of the big ones; they can't slap all the places they have to slap. Once I heard one of 'em say what she thought of me. . . . they were harsh words, what I mean. . . .

There's one girl on this boat. . . . I'm after and you can take it from me that I'm out for his blood the next time he boards this here boat. . . . Just when we mosquitoes were getting ready to carry on our legitimate business a year or two ago this guy Craig comes along and declares war on us; of all the dirty tricks that's just about the worst. It's getting so a fellow can't go out and rustle an honest living these days. . . . Mr. Craig has some nice succulent spots to bite. Watch my smoke!

There's one girl on this boat. . . . here she comes now. . . . I have a lot of fun with. She has rather a sweet face, not unlike my wife's, but she's sure afraid I'll leave my mark on that dainty little nose of hers. Watch my now (Geel that was good, and I just stepped that little hand of hers in time). . . . Isn't she mad, though; she's taking something out of her bag now and rubbing on her nose. . . . I'll bet she'll give Mr. Craig, the traitor, a piece of her mind. . . .

I think I'll scout aft and see what Sam Claus sent me this afternoon in the line of papulum. . . . Ah, the staff of life looms ahead, none other than the man from Westbank, who seldom fails me. . . . Oh, he's just a bit crabby today—that smack made him red in the face. . . . I tell you a fellow has to be agile in taking a living off ferry passengers; some of these guys are almost as fast as I am, but not quite. . . . There! I got the man from Westbank back of the left ear that time. My belly's beginning to bulge already.

Oh, oh. . . . and who have we with us now, friends. . . . none other than the Captain. . . . and I haven't called on the Captain in days. Let's see. . . . I nearly tried my sword double the first time I bent the old son of a gun. . . . But Bill and I are friends at that. When I have finished wrestling a living from tenderer skins, I sometimes go to sleep on Bill's neck, just behind his collar. He never bothers me, and I have warned all my pals to leave him alone. . . . One fellow did manage to penetrate Old Bill's skin, but he landed in the hospital for a week. . . . We all have great respect for Bill. . . .

Ah, lick your lips, friends. . . . here comes that little dear with the sheer silk stockings. . . . she has the nicest calf of any woman I know, and I don't mean maybe. . . . Real tenderloin. . . . But she almost got me once. . . . a guy has to be wary with her. . . . I remember one day I landed on a nice soft spot just under her chin; she was powdering her nose at the time (I was as white as a ghost for an hour afterward); I took a long pull of nectar and she was so startled she dropped her mirror. . . . And she almost got me! I just managed to slip through her fingers by the skin of my teeth. I'll bet she's one of Craig's disciples. . . . Ah, that was just the right flavour. . . .

Well, I'm getting so heavy my flappers are tired. Time I took a rest. A fellow's got to watch his digestion too; I was almost poisoned once by overworking when I'd taken too much of a variety. I bit an old Chinaman who hadn't enough rice in his system—he'd been taking some kind of hootch—and I tell you it nearly bowled me over. I felt in high spirits for awhile before I got sick and when the wife smelted it on my breath. . . . well, she almost threw me out on my ear! I don't want to make a mistake like that again. . . . life is short enough, anyhow.

Here comes Old Bill. . . . and he's got on the same nice old, comfortable old, dirty shirt. Ho, hum. Now for a refreshing snooze. I hope that Old Bill doesn't get restless one of these days and knock me off in my sleep. . . . At that, though, there's worse ways of dying. . . .

VIRTUES OF APPLES NEED ADVERTISING

Health-Giving Qualities Pushed Into Obscurity By Boosting Of Other Fruits

The popular "apple a day" that keeps the doctor away has apparently been allowed to take "a back seat" in the last few years. Health lecturers who are engaged to boost other fruits and their juices have apparently prevailed over the health-giving apple.

It would seem policy on the part of apple growers to do a little advertising so that the home market can be enlarged, as it will be found more profitable than the export market.

The following is the situation in the United States and it is very similar in Canada.

The apple consumption in 1899 was 111.59 pounds per capita. In the period from 1923 to 1927, the average fell to 71.20 pounds per capita. In the same time, orange consumption increased from 6.69 pounds per capita to 19.49 pounds. In the same period, strawberries decreased from 5.16 pounds to 3.56 pounds. The same statistics indicate, however, that there was a substantial increase in the per capita consumption of both fruit and vegetables.

We are not producing too much but consuming too little on account of lack of featuring the health-giving qualities of the apple.

IRRIGATION OF ORCHARDS

In the irrigated districts of British Columbia wise fruit growers are making special provision for the economical use of irrigation water this summer. While prophecies of water shortage do not always come true, there seems to be good reason to expect that money invested in new flumes will pay special dividends this year. Leaky flumes not only mean waste of valuable water but also frequently result in serious damage from seepage.

Extra care should be taken in marking out irrigation furrows. At the Summerland Experimental Station a small six-inch plough, with a piece cut out of the share and mould board so as to ensure a comparatively narrow furrow, has been used with excellent results. The distance apart which furrows should be placed to give most economical results depends somewhat on the character of the soil. The one safe rule is to place the furrows sufficiently close so that after a normal irrigation all the soil between them, at a depth of a foot or so below the surface, is moistened. It has been found by repeated tests that after a thirty-six hour irrigation it is only in exceptional cases that the moisture has spread more than eighteen inches on each side of the furrow. In this connection it might be well to point out that water travels faster in a downward direction than it does sideways. When furrows are placed a long way apart and water is run in them a long time in the hope of moistening all the soil between them there is usually a great deal of loss from percolation below depth of tree roots.

The most desirable length of run also depends to a large extent on the nature of the soil. On porous sandy or gravelly soils best results are secured with a short length of run, whereas with soils of a more impervious character, composed mainly of clay or silt, comparatively long furrows may be used to good advantage. Even on heavy soils, however, a furrow more than a hundred yards in length is likely to result in a great deal of loss through percolation at the upper end and in poor distribution of moisture at the lower end of the run.

With his furrows made, the next question which confronts the grower is: "When shall I apply my first irrigation?" Some growers have the opinion that the application of water during the blooming season is likely to reduce the set of fruit. Observations made at the Summerland Station do not support the contention. No ill effects have been noted following the application of irrigation water while the trees were in bloom. The results secured suggest that an ample supply of soil moisture is essential during the spring months in order to ensure a good set of fruit. Accordingly, if the soil shows signs of drying out, it seems advisable to apply water regardless of the stage of bloom.

When the grower has his water running, the next question which is likely to occur to him is: "How much water shall I apply?" Unfortunately, few growers are equipped with the measuring devices necessary to determine how much water they are using. They must judge the amount by the time required to apply it and by examination of the soil. The length of time the water is run is by no means an accurate indicator of the amount applied, for a much longer time is required to apply a given amount of water to heavy soils and to soils of which the physical condition is poor than is the case with lighter soils and soils having a high humus content. On deep silt soils water can sometimes be run in the same furrows for two or three days to good advantage, whereas a similar procedure on light sandy soils would be most wasteful. The ideal amount of water to apply is that which will ensure moistening of the soil to the depth occupied by tree roots. There is only one way to determine when this amount of water has been applied and that is by examining the soil at different depths. Use a shovel instead of a hoe when you irrigate!

With regard to frequency of application, the most important point to keep in mind is that the soil should not be allowed to become very dry between irrigations, for when this occurs the trees are likely to be seriously injured. In deep soils which are retentive of moisture irrigation at monthly intervals is often found sufficient, but in orchards where the soil is light and shallow weekly applications of water are sometimes advisable during the heat of the summer. Water should be applied before the trees show signs of suffering from lack of moisture. A simple test of whether irrigation is required is to squeeze a ball of earth together in the hand. If the ball falls apart when the hand is opened water should be applied.

PROPERTY OPPORTUNITIES

Property is real and tangible, whether represented by houses or lots. Never was the opportunity for good real estate investments better, as value, in sympathy with the stock market crash and world depression, is the lowest on record. Houses bought now for renting will return good dividends. Consult us about real estate and business opportunities.

Chevrolet is the world's largest builder of six-cylinder trucks

WHEREVER you go—on city street or country road—you find Chevrolet six-cylinder trucks very much in evidence. Thousands of these sturdy trucks are on the job daily, delivering goods, moving supplies, doing all types of light and heavy hauling.

Every line of business is coming to rely more and more on these big, powerful Sixes. Indeed, the demand for Chevrolet trucks during the past several years has been such that Chevrolet ranks today as the world's largest builder of six-cylinder trucks and commercial cars.

TUNE IN FRIDAY NIGHT ON "CANADA ON PARADE"

FEATURES: Three wheelbase models—a 109-inch commercial chassis of half-ton capacity, and two 1½-ton trucks—one of 131 inch wheelbase and the other 157 inch. Features include: New dual rear wheels, with 30" x 5" 2-ply truck-type cord tires. New and heavier front axle. Special truck-type clutch with ten-inch discs. New and heavier rear axle. Massive new frames. Fully enclosed 4-wheel braked with larger rear drums. Four-speed transmission. New, roomier, finer-looking cabs. 30-horsepower 6-cylinder valve-in-head engine.

CHEVROLET 1½ TON CHASSIS WITH 131" WHEELBASE. \$675 (Dual wheel option, \$50 extra)
1½ TON CHASSIS WITH 157" WHEELBASE. \$720 (Dual wheel option, \$50 extra)
COMMERCIAL CHASSIS, \$470. Illustrated above is the Chevrolet 1½ ton truck complete with Chevrolet cab and stake body. All prices f.o.b. factories. Taxes and special equipment extra. CT16-34

Brown was making a visit to a girl who lived in the country. As they were walking through a field they noticed a cow and calf rubbing noses in bovine love. He spoke up:

"The sight of that makes me want to do the same thing."
"Go ahead," she replied, "it's father's cow."

SPORT ITEMS

SOFTBALL

Schedule Of Games During Season

With eleven teams definitely in the race, softball appears destined to be one of the "going concerns" of the summer athletic activities. Three regulation diamonds have been carefully laid out on the playing field at the Athletic Park on a turf surface, which this year is in splendid condition. With all players lists now duly recorded, it develops that one hundred and sixty-eight of Kelowna's male citizens intend to take part in the popular game, while a ladies' league will in all likelihood be under way before many weeks have passed. The complete schedule of games follows, and it is suggested that all players retain a copy for ready reference.

April 28.—Business Men vs. Bankers; K.G.E. vs. Clerks; Senior B vs. Intermediate B.

May 1st.—Gyros vs. Glenmore; Intermediate A vs. Intermediate B; Bankers vs. Clerks.

May 5th.—Senior C vs. Glenmore; Business Men vs. Senior B; Bankers vs. Intermediate B.

May 8th.—Clerks vs. Senior C; Gyros vs. Senior B; K.G.E. vs. Intermediate B.

May 12th.—Business Men vs. Senior C; Intermediate A vs. Knights of Columbus; Intermediate B vs. Glenmore.

May 15th.—Business Men vs. Intermediate B; K.G.E. vs. K. of C.; Senior B vs. Intermediate A.

May 19th.—Gyros vs. K.G.E.; Bankers vs. Senior B; Clerks vs. Intermediate A.

May 22nd.—Gyros vs. Senior C; Business Men vs. K. of C.; Clerks vs. Senior B.

May 26th.—Senior C vs. Intermediate B; K. of C. vs. Glenmore; Gyros vs. Bankers.

May 29th.—Business Men vs. Intermediate A; Clerks vs. Glenmore; K.G.E. vs. Senior C.

June 2nd.—Clerks vs. K. of C.; Senior C vs. Intermediate A; Business Men vs. K.G.E.

June 5th.—Intermediate B vs. K. of C.; Business Men vs. Clerks; Bankers vs. K.G.E.

June 12th.—Senior B vs. Glenmore; Gyros vs. Intermediate B; Senior C vs. K. of C.

June 16th.—K.G.E. vs. Senior B; Intermediate A vs. Glenmore; Bankers vs. Senior C.

June 19th.—Gyros vs. Intermediate A; Bankers vs. Glenmore; Senior B vs. K. of C.

June 23rd.—K.G.E. vs. Intermediate A; Gyros vs. Clerks; Business Men vs. Glenmore.

June 26th.—Bankers vs. K. of C.; K.G.E. vs. Glenmore; Senior B vs. Senior C.

June 30th.—Gyros vs. Business Men; Bankers vs. Intermediate A; Clerks vs. Intermediate B.

July 3rd.—Gyros vs. K. of C.

(NOTE)—All games will commence promptly at 6.15 p.m. and each team must be supplied with bat and one ball for all league games.

TENNIS

Local Courts Now In Daily Use

At the B. C. Lawn Tennis Association annual general meeting in Vancouver last week, F. D. Nicholson was re-elected as President, and H. G. M. Gardner on the Executive Council. The Kelowna Club is therefore represented on both the Provincial and Canadian Associations, as W. Metcalfe was elected councillor-at-large of the latter body about a month ago. It is hoped that Mr. Nicholson will again be able to act as official referee for the Interior Championships this year. The Kelowna Lawn Tennis Club have applied for the week commencing July 13th for this tournament, which is just two weeks before the Dominion Championships at Vancouver, with the hope of attracting players from the East on their way to the Coast, as well as from western and southern centres.

The official opening day when members are entitled to invite guests to the Club has been announced for the afternoon of Thursday, May 7th. A Mixed Doubles American Tournament has been announced for the afternoon of Thursday, May 14th, instead of the usual one on May 25th, in order that it will not clash with the track meet scheduled for that date, and it is hoped that all members who can will take part and make the event a success.

The Singles "ladder" is to be started again soon, and to encourage singles players the committee has ruled that the front courts may be booked by members on Monday afternoons for an hour at a time, for that purpose. The courts are now being used daily, especially on Thursday and Sunday afternoons, the attendance on these occasions being around the forty mark.

ROWING

Keen Interest Evinc'd At General Meeting In Club Activities

As an indication of club activities already well forward for the season, a most enthusiastic and well attended meeting of the Kelowna Rowing Club members was held on Monday night at the Board of Trade Rooms.

Discussion regarding a preliminary regatta this summer was one of the highlights of the conclave, and the plan was considered well worth while. Since the programme will consist in the main of rowing events, it will be possible to run through it in an afternoon, Thursday, July 30th, was selected as the date for the event. It was announced that a genuine supporter of rowing and friend of the club had offered cups for competition in this preliminary regatta, but wished to remain anonymous in regard to the donation. The unknown donor's offer was met with pleased appreciation by the members, needless to say. A cabaret dance will wind up the programme of the day, and will be

Boys and Girls! Men and Women! The day of days, July 23rd.

ECONOMIST MAKES PREDICTION ON RUSSIAN COMMUNISM

Sir George Paish, economist of international fame, predicted, when in Montreal recently: "If the five-year plan succeeds, it will mean the end of communism in Russia."

staged in the Aquatic Pavilion. Associate membership tickets will shortly be issued by the club, the rates for associate members having been set at \$1.00 per year.

It was stated that coach Wilson, who proved so successful in building winning crews last season and whose previous sojourn as rowing mentor made him a friend of all, will return to Kelowna early in July.

A schedule for crew practices is being drawn up and will be posted shortly.

The consensus of opinion being that the Club should have its own distinctive colours, purple and silver were chosen, consequently purple blazers with silver white badges and piping will be purchased.

Nine four-oared crews and a number of doubles were formed, and it is hoped, with the co-operation of the Sea Cadets, to organize two cadet crews to form the nucleus of good rowing material. The cadet crews will not begin rowing until the coach arrives, in order that they may benefit by competent supervision.

GOLF

Owen And Seon Will Meet In Final For Club Championship

The semi-finals for the Knox-Campbell Cup, emblematic of the club championship, were played over the weekend, and Chester Owen, by his win 3 and 2 over C. R. Reid, will play A. E. Seon for the championship, the latter having defeated D. Currell 2 and 1 in the semi-final play. The feature event between Owen and Seon will take place on Thursday, May 14th, at 1.30 p.m. In the consolation flights, V. D. Lewis beat H. A. Willis; A. Hodgins beat E. W. Barton; H. K. Todd beat J. Benmore; J. Dunlop beat J. D. Quine; the four winners being in the semi-final.

Heavy frosts hit the Southern Okanagan with devastating effect on April 18th, 19th and 20th, when about 75 per cent of the cherries in the Oliver area were lost. Peaches and apples were also badly damaged, and it is estimated that Oliver will not have more than a third of the fruit crop expected this year. Taking the Penticton district as a whole, the loss in soft fruits will be from fifteen to twenty-five per cent.

The habit of taking snuff is on the increase in Canada. In 1929, over 997,000 pounds was made, valued at \$1,280,933, an increase of over 337,000 pounds and more than \$530,000 in value as compared with 1919.

"And now," said the druggist to his apprentice, "since you have mastered the names of the 75 brands of candy bars, you can spend the next two weeks memorizing the list of tooth pastes." After that we presume he will take his first lessons in cooking.

TENDERS WANTED

Tenders are hereby required for the position of Auditor for the Books and Accounts of the Association for the Fiscal Year ending 28th February, 1932.

Tenders to state price and number of visits they propose to make.

All Tenders to be in the hands of the Secretary by not later than May 14th, 1931.

Envelopes to be marked "Tender for Auditor."

OKANAGAN LAKE WATER FOR GLENMORE IRRIGATION

Concrete Pipes Will Convey Supply Derived By Pumping

The concrete pipe now being laid in the construction of the new irrigation system for Glenmore, which will convey Okanagan Lake water to some 500 acres of land in the Glenmore area for irrigation purposes, is being installed by the B. C. Concrete Co., Ltd., of Vancouver, under the direction of Mr. Wm. Mason, Superintendent, and is the first of its kind to be used in this district. Twenty-five carloads, or 500 tons, of this re-inforced concrete pipe in 16-inch, 15-inch and 12-inch sizes, in addition to a quantity of wood pipe, will be used to complete the project. The water will be pumped through the pipes by a powerful pumping unit.

The concrete pipe to be used is manufactured through what is known as the Hume centrifugal process, and the Vancouver company was the first on the North American continent to manufacture pipe by that system. Before the system was perfected, concrete pipe could only be used where the water pressure was very low, but pipe manufactured by the Hume process can be used up to 200 feet head pressure. This pipe is invulnerable to attack by acids in the soil, and it has also been found that the water carrying capacity is much greater than that of any concrete pipe made heretofore.

Pipe made by the Hume method is manufactured in 81-foot lengths in revolving moulds on turnings or rollers, and the concrete is shovelled in at both ends. The centrifugal action compacts the wet concrete so solidly that in a few minutes after it has been shovelled into the forms considerable force is required to remove the new concrete.

The forms are placed in a steam room for a few hours, are then stripped and in a few days are ready for shipment. Re-inforcing steel is placed in the pipes according to the pressure resistance required, a distinct advantage over the old system of tamped pipe which had no re-inforcing.

The Vancouver company has a plant site which covers six acres, and is manufacturing pipe ranging from six to sixty-six inches in diameter. Pipe of the latter size is being manufactured for the Greater Vancouver Sewerage Board, and each piece of pipe weighs seven and a half tons. The Hume system is an Australian patent. In Australia, the pipe works are surrounded by a high fence and barbed wire. Not so in Vancouver. The public are invited to visit the B. C. Concrete Company's plant at Marpole, in the Greater Vancouver area, to see the interesting process of manufacture.

Among the contracts executed by this company was the installing of the East Creston irrigation system, which utilized about seven miles of concrete pipe and twelve miles of distribution pipe. This affords a splendid example of what can be done with Hume pipe, as two deep syphons under high pressure were installed under circumstances of great difficulty, a feat impossible with the old type of concrete pipe.

It is expected that the Glenmore system will go into operation next month. Water will be conveyed to the foot of Knox Mountain to Mr. Hartwick's top orchard, where it will be divided into two branches, both joining existing systems.

CODLING MOTH REGULATIONS No. 3

TAKE NOTICE that the regulations in force under the "Codling Moth By-Law" of the Municipality of Glenmore are as follows:—

"For preventing the growth and spreading of Codling Moth, all bearing apple, pear and crab-apple trees within the boundaries of the Municipality must be sprayed three times with arsenical spray composed of not less than one pound of arsenate to forty gallons of water, to be applied by means of an efficient spraying equipment to the satisfaction of the Provincial Assistant District Horticulturist, as follows:

No. 1 spray. A calyx spray to be applied when the last blossoms are falling.

No. 2 spray. A cover spray to be applied three weeks after the No. 1 spray.

No. 3 spray. A cover spray to be applied between July 20th and August 1st."

R. W. CORNER, Municipal Clerk. 38-2c

RUMOURED VANCOUVER-AUSTRALIA FLIGHT

TORONTO, April 30.—Bert Hinkler, Australian flier who set the first record for a London-Australia flight, is

here supervising the overhauling of a large plane. Admitting that he has plans made for a flight somewhere, but refusing to state the destination, Hinkler has it that he is to hop off from Vancouver for Australia.

FISHING OPENS

on Friday and Friday is Fish Day.

So it will be lucky for the boys who cast.

Okanagan Lake should be good with Pfluger Bait.

NATURALLY we have no reports because no one could try out the fishing spots in advance.

CHUTE LAKE should be good.

FISH LAKE, Summerland. Better wait a few days.

LITTLE RIVER has some steelhead and they have been flirting with fishermen for some days. Shy things!

WOODS LAKE should be good on Sunday with spinner and worm.

SATURDAY SPECIAL

84 feet line and spoon for 50c

Spurrier's

Trig New Shoes

STEP ALONG THE HIGHWAY OF FASHION

Slim, unbroken lines, coloured leathers to carry out the composite idea, smart simplicity, and throughout that quality which makes these shoes extraordinary both in style and value. Chic Oxfords with three eyelets—pumps with in-step straps—step-in pumps—high and low heels, in patent leather, brown and blonde kid—lizard, calf skin or parchment kid—many new combinations and composite effects.

HEEL HUGGER SHOES FOR WOMEN

Combination fitting, fit the feet.

THE HEEL HUGGER ARCH SHOES for sensitive arches, are simply wonderful. Made in Canada at prices one is prepared to pay for honest footwear. "No one ever regretted buying quality." The Murray Shoe Co., Ltd., of London, Ont., make the Heel Hugger for Canada. Hear their programme over N.B.C. Network.
